THE Regency Auction 55

OCTOBER 20 • RED BANK, NJ • LRCA OFFICE

Welcome to Red Bank!

The red carpet is being rolled out for you. Our Regency Auction 55 is being held in our offices in Red Bank, NJ for the first time since the beginning of the pandemic. We will be offering live bidding in our offices for those who wish to attend in person, as well as online, absentee, and phone bidding.

The auction is made up of the 230 lots, presented in our unique boutique style, and highlighted by some fabulous coins that come from two featured anchor collections and from other important consignors. Anyone who has followed our Regency Auctions over the years is familiar with the Sommelier Collection. We have sold several installments for this distinguished collector. He has consigned to us the second part of his Walking Liberty half dollar set. With the eye and taste of a connoisseur, each coin was carefully selected, and while they are not top pops, each coin is fresh to the market and is very high end for the assigned grade, as evidenced by the 100% CAC approval.

The Euel Durwood Jones Collection of U.S. Gold Coins is the second anchor collection. Highlighted by a Gem set of \$2.50 Indians, the #12 set on the NGC Registry. Also included are a handful of amazing U.S. Gold coins, including what we consider to be the finest known 1893-S \$20, a PCGS/CAC MS65, which has the added cache of being the David Akers plate coin for the series.

The rest of the sale is full of great Legend Rare Coin Auctions' types of coins: high grade rarities, finest graded coins for Registry Set collectors, toned dollars, beautiful type coins, great gold coins, and patterns. No matter what you collect, you will find something of interest to bid on in the pages that follow.

On Sunday, October 23, do not forget we will close the Regency Auction Online Only Session. These have proven extremely popular with our bidders since we began them in April. The Online Only Session has an additional 109 lots, including fantastic collector coins of all denominations. Dimes from the S.S. Central America Shipwreck are among the few coins from the Euel Durwood Jones Collection.

Another great Regency Auction is about to begin! We wish you the best of luck in your bidding!
Warm regards,

Jessica Berkman
President

LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or

circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend or modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

**LOT 1****1C 1850 PCGS MS65 RD**

This is a lovely RED large cent with a bold cartwheel luster that enlivens the surfaces. Bold original mint color is certainly not dull or lifeless as sometimes encountered, nor is this an RB in a RD holder. The strike is crisp and bold throughout with incredible sharpness among Liberty's hair details; the star centers are partial and there is some weakness at the reverse periphery. There are some minor flecks and a tiny tick or two visible with the assistance of a strong glass, but none that are distracting, and noted for accuracy. The eye appeal is very nice.

PCGS 23, NGC 6. It has been over two years since a PCGS MS65 RD example has sold in auction, realizing \$3,120 in the August 2020 sale of the E.S.M. Collection. The current PCGS Price Guide value is listed at \$4,500. VERY RARE finer, PCGS has graded just four finer. What a great type coin that will surely delight any collector.

PCGS# 1891 | EST: \$3,800+

**LOT 3****1C 1877 NGC MS62 RB CAC**

An essentially CHOICE Mint State example of this KEY date Indian Head cent. Ample red clings to the surfaces, particularly in the recesses. Well struck, the details stand out boldly. A hint of luster under the deep toning. A few tiny traces of contact account for the assigned grade, but this coin has an old collection look and is totally original.

PCGS 20, NGC 9, CAC 1. There has not been an NGC-graded MS62 RB sold since April 2015. The current Collectors Universe value is listed at \$5,150. A non-CAC NGC MS63 RB sold in July 2021 for \$7,800. We expect strong bidding on this impressive example.

PCGS# 2128 | EST: \$4,000+

LOT 2**1C 1858 SMALL LETTERS NGC MS64 CAC**

This is a beautifully toned borderline GEM Flying Eagle cent. Iridescent sky-blue, lilac, and rose blend over the highly lustrous golden-tan copper-nickel patina. The obverse devices are crisply rendered and there are no serious marks of any kind. Certainly worthy of its double endorsement: Eagle Eye Photo Seal and CAC.

PCGS 363, NGC 282, CAC 75. The most recent example sold in February 2022 for \$2,220. The current CAC CPG value is listed at \$2,100, but we suspect this one will sell for more. Worthy of a fantastic collection.

PCGS# 2020 | EST: \$1,800+

LOT 4**1C 1874 PCGS PR66 RB CAC**

A glorious and fiery brilliant GEM Proof! Mostly full red, there is just a blush of iridescent toning over the highly reflective surfaces that led PCGS to call it RB. The details are sharply impressed and have a rich frosted texture giving this coin a slight cameo look at certain angles. One of the nicest examples we have handled in a while.

Only 700 Proofs were struck. PCGS 15, NGC 17, CAC 3. The most recent PCGS-graded PR66 RB sold in our September 2021 Regency Auction for \$2,585 and it was not CAC, nor was it as flashy and vibrant as the present coin. This one should bring more. Good luck.

PCGS# 2310 | EST: \$2,000+

**LOT 5****1C 1883 PCGS PR66 BN**

A beautifully toned GEM Proof. Dramatic teals, reds, and violets blend over highly reflective fields. This coin displays more red than some RBs that are on the market. A lovely example of this Proof Indian cent. Free of any distractions and a bold strike. Boasting an Eagle Eye Photo Seal for its great eye appeal.

PCGS 74, NGC 60. This coin brought \$1,250 hammer in our August 2016 Premier Session. The current PCGS Price Guide value is listed at \$1,400 and this coin is certainly worthy of a premium bid!

PCGS# 2336 | EST: \$1,000+

**LOT 6****1C 1929 PCGS MS67+ RD CAC**

We are proud to offer this PRISTINE, SUPERB GEM 1929 cent. Tied for FINEST graded at either service, this is a truly spectacular specimen. Vibrant, flashy, fiery, mint red brilliance radiates boldly along the ultra clean surfaces, enlivening the sharply defined details.

PCGS 88, NGC 40, CAC 25. There are 17 graded MS67+ RD and NONE FINER. The current PCGS Price Guide value is listed at \$4,250 and the most recent example sold for \$4,350 in October 2021. With NONE higher, this coin belongs in a top ranking Registry Set. Good luck.

PCGS# 2596 | EST: \$4,000+

**LOT 7****1C 1943-S PCGS MS68 CAC**

Among the HIGHEST graded examples, with just five graded MS68+ finer. A one year only emergency issue struck in zinc-coated steel, as copper was an essential war material. This is a vibrantly brilliant example, exuding eye appeal and technical quality. Free from distracting marks or flecks and the details are crisply defined. The eye appeal is great!

PCGS 128, NGC 94, CAC 66. The most recent PCGS/CAC example sold for \$4,800 in May 2022. Both the PCGS and CAC CPG values are listed at \$3,500. Only one PCGS MS68+ CAC has sold in major auction, realizing \$19,200. That is a huge spread, and this one is worthy of a strong, premium bid, commensurate with its outstanding quality.

PCGS# 2717 | EST: \$3,200+

**LOT 8****1C 1914 PCGS PR66+ RB CAC**

What a fabulous Matte Proof Lincoln! WOW! We LOVE the look of this SUPERB GEM! Essentially full red surfaces glisten with a wonderful matte luster. The light dances off the countless facets on the sandblast surfaces, accenting the rich orange-red color that melds with an overtone of attractive purple that makes Lincoln's coat stand out. Splashes of color can also be seen on the reverse fields. The eye appeal is stunning!

PCGS 48, NGC 26, CAC 23. There are four in PR66+ RB and just 10 finer in the designation. The most recent PCGS PR66+ RB CAC sold back in April 2020 for \$3,600. The current Collectors Universe value is \$4,850 and it jumps to \$9,000 in PR67 RB. Bound for a great set, and will take a premium bid to take home. Good luck.

PCGS# 3319 | EST: \$3,500+

LOT 9**2C 1865 PCGS MS66 RD CAC**

A truly incredible quality PQ GEM 2C piece! WOW! A BOLD RED brilliance radiates as bright and lustrous as the day it fell from the dies! Well struck devices are accentuated by smooth fields and swirling cartwheels. The eye appeal is SPECTACULAR! Did we say WOW?

PCGS 40, NGC 27, CAC 24. The most recent example sold in June 2021 for \$7,800 and prior to that, we sold one in January 2020 for \$4,348. Clearly both the PCGS and CAC CPG values are out dated and need to be updated for the current market. EXCESSIVELY RARE any finer, there are just four graded MS66+ RD and a single MS67 RD at PCGS. Bound for a great Registry Set! Good luck.

PCGS# 3584 | EST: \$4,000+

**NOTES**

LOT 10

2C 1865 PLAIN 5 PCGS MS67 RD

One of the FINEST KNOWN 1865 two cent pieces, and is this a simply stunning specimen! This is the SINGLE FINEST graded with the Plain 5 logotype in the date. The Plain 5 type seems to be scarcer overall, but in this lofty state of preservation, ALL 1865 two cent pieces are EXTREMELY RARE.

WOW! This SUPERB GEM is dripping with glowing, fiery red luster. Bold, swirling cartwheels sweep all over with a stunning mint brilliance. One or two tiny flecks can be found with a powerful glass, but they are virtually invisible to the unaided eye. Crisply defined devices stand out with full details. The eye appeal is truly AMAZING!

PCGS 1, NGC 0. This coin has not sold in auction, but there is a PCGS Price Guide value of \$23,000 (odd because the unattributed 1865 PCGS Price Guide value is \$27,500). Back in 2005, an unattributed PCGS MS67 RD Fancy 5 sold for \$20,125. Obviously NONE are finer in the designation for any variety, and we think the PCGS Price Guide values are too low. Bound for the #1 Set or an amazing Civil War era type set. Good luck.

PCGS# 38249 | EST: \$22,000+

LOT 11**2C 1865 FANCY 5 PCGS MS67 RD**

Tied not just for FINEST Fancy 5 graded by PCGS it is tied for FINEST of the entire date! This is a spectacular example of this Civil War issue. While the 1865 is the second most common issue behind the 1864 Large Motto in an absolute sense, however, in such a lofty state of preservation, this date is a MAJOR condition rarity, with just two examples in this grade. Two different #5 punches were used to create the logotype for the date, the Fancy 5 as here shows "the right half of the top edge of the 5 dips dramatically, creating a distinctive 'flip' to the point of the 5." (per Ron Guth on PCGS CoinFacts).

This SUPERB GEM example is mint fresh! Shimmering RED surfaces are aflame with a bold, radiant, and stunningly brilliant mint luster. Sharply struck devices stand out for their crispness. This coin boasts nothing but exquisite eye appeal!

PCGS 2, NGC 0. The only example to sell brought \$25,850 back in January 2014--that was nearly nine years ago! Today the PCGS Price Guide value is listed at \$28,500. With NONE FINER and TOP POP type coins always in strong demand from collectors, we expect strong bidding to bring this SUPERB GEM home! Good luck.

PCGS# 38258 | EST: \$24,000+

LOT 12**2C 1867 DOUBLED DIE OBVERSE PCGS MS65 RD**

The 1867 is a classic die variety in the series, long listed in the Red Book. Over the 35+ years PCGS has been grading coins, they have graded exactly four examples in the RD category, with NGC grading ZERO. This variety is RARE in Mint State grades, and those demanding the finest have few opportunities to acquire one. The doubling is bold, especially in the motto IN GOD WE TRUST.

This is a warm, red GEM. Brilliant mint color dominates both sides, though it has mellowed somewhat, with some delicate iridescent peripheral overtones. This is light enough that it did not lead to an RB designation. The devices show complete definition, sharply impressed by an exacting blow from the dies. A couple of ancient flecks and a small planchet flake identify this GEM and have minimal impact on the overall eye appeal.

PCGS 3, NGC 0. The current PCGS Price Guide value is \$30,000 and this coin last sold in the 2014 FUN auction. Do not let this important opportunity pass you by!
Good luck.

PCGS# 3596 | EST: \$22,000+

LOT 13

2C 1873 OPEN 3. PCGS PR66+ RD CAC

Ex Simpson Collection, as noted on the insert.

This short-lived series concluded in 1873 with a small, Proof Only, estimated mintage of 600 pieces. Walter Breen wrote that those featuring the Closed 3 Logotype in the date were so-called originals, and the Open 3 variant as here were "restrikes." He estimated that the Open 3 appeared just once out of every nine or ten appearances of the Closed 3. Current certified population data verifies that the Open 3 is about three times rarer than the Closed 3. PCGS CoinFacts suggests there were 500 of the Open 3 struck.

The presently offered, example is the SINGLE FINEST graded in the RD category at either service. Ultra bold and deeply reflective mirrored fields are brilliant red, a color trait that is decidedly rare in all grades, especially so in GEM. Sharply struck, the devices show crisp definition and surfaces that are near perfection, devoid of any flecks or marks. The devices show a moderate frost that contrasts against the reflective fields. A bold eye appeal will delight any collector.

Only 500 were struck. PCGS 6, NGC 3, CAC 3. This is the ONLY PR66+ RD graded by either service and there are NONE FINER. There are no coins graded in the CAM designation. LOT 14**3CS 1863 PCGS MS66 CAC**

This extremely popular Civil War era date saw a mintage of only 21,000, thus the 1863 3CS is a rarity in any grade. These are always sought after in high grade, and luckily for collectors a small number of Gems have survived the ravages of war and the attrition of circulation.

This incredible quality GEM is premium quality and has a great, original look. Satiny lustrous with just a hint of reflection in the fields, this PQ GEM is awash in iridescent color! Salmon-rose, gold, azure, and pleasing silver-gray meld together in a visually striking way. The details are crisply rendered and nicely defined from clashed dies.

PCGS 22, NGC 12, CAC 11. The current PCGS Price Guide value is listed at \$7,000 and the CAC CPG value is listed at \$5,700. Fewer than ten have ever graded higher. This piece will surely delight any serious collector. Good luck.

LOT 15**5C 1868 PCGS PR66+ CAM CAC**

Ex Gerald R. Forsythe Collection, as noted on the oversized holder.

What a high end quality and visually wonderful SUPERB GEM example of the date, one of the FINEST three examples graded. You know that if its from the Forsythe Collection, the quality is all there and then some! WOW!

The intensely mirrored fields are deeply beaming with bold nickel-silver reflection. Razor sharp, thickly frosted devices provide a high end cameo contrast. A delicate golden dusting on both sides give this lovely coin touch of color. The eye appeal is off the charts and it would be impossible to find a FINER example!

Only 600 Proofs were struck. PCGS 20, NGC 20, CAC 18. PCGS has graded 3 in PR66+ CAM and NONE FINER. We have had the honor of selling two of these, most recently in March 2020 for \$5,288 and the Trzaska Collection coin in December 2019 for \$11,163. The current Collectors Universe value is \$6,750 and we have no doubt this SUPERB example will bring more! Good luck.

**LOT 17****5C 1902 PCGS MS67 CAC**

A total luster bomb! We marvel how this coin has survived 120 years in the highest state of preservation possible! We designate it in the top 5% of ALL MS67 Liberty Nickels that exist (we think its a borderline MS68, no guarantees).

If you think we are exaggerating the coin's quality-just come to lot viewing and see it for yourself! This is a very REAL and PERFECT specimen. Both sides are satiny and have NO marks anywhere or any size. A monster full booming luster nearly blinds you. This is a totally ORIGINAL GEM and not a dipped coin. Miss Liberty and the details are exceptionally struck and stand out boldly. The eye appeal is PHENOMENAL and then some!

PCGS 9, NGC 3, CAC 5. One sold in August 2021 for \$6,600 and prior to that, one sold in the 2015 FUN auction for \$7,638. The current Collectors Universe value is listed at \$7,000. Just a single MS67+ has ever graded higher, and last sold for \$26,400 back in the 2018 FUN auction. No doubt this coin presents a fantastic opportunity to acquire an AMAZING SUPERB GEM for a top tier Registry Set. Good luck.

PCGS# 3905 | EST: \$3,200+**LOT 20****5C 1909 PCGS PR68 CAM****CAC**

This is a truly WILD beast of a SUPERB GEM Proof! Clearly it is one of the FINEST that exists, and if we had not handled the PR68+ CAM from the Forsythe Collection in September 2021, we would think this date was unimprovable in the designation.

The mirrors are the ultimate in clarity and FLAWLESS surfaces offer deep and super flashy reflection. You can use a strong glass and look forever and find NO flaws. When you twirl the coin the mirrors look like a freshly made sheet of glass. The contrast is bold. Ms. Liberty and the details are pinpoint sharp and have thick creamy white frost. It has unforgettable quality and the eye appeal is jaw dropping!

PCGS 5, NGC 12, CAC 5. We sold the most recent example for \$24,675 in July 2022 and the current PCGS Price Guide value is listed at \$30,000. Holy cow, or rather holy Buffalo! Whoa! What a stunning example. Among the FINEST graded and the ONLY MS68 or MS68+ approved by CAC from any service. The eye appeal and technical qualities are off the charts. They say a picture is worth a thousand words, and that is true, as this coin defies written description! Even if you don't collect Buffalo nickels, you will instantly see how special this coin is!

Vivid rainbow toning blankets the intensely lustrous fields and sharply struck devices. Neon and pastel hues, shades of green, pink, gold, blue, teal, and lavender blend and meld and contrast with each other, giving this SUPERB example a sensational look. Clearly Mother Nature and Father Time worked their best magic! We rate the color a 10 out of 10 on our 10-point color scale.

PCGS 6, NGC 18, CAC 1. This coin does not appear to have sold in auction. A non-CAC PCGS MS68 sold in a February 2021 Online only auction for \$19,125 and that coin was no where close to as amazingly toned as this MONSTER. One look and you are sure to fall in love. The PCGS Price Guide suggests a value of \$25,000--that number may well be surpassed when the hammer falls. Good luck.

A GEM of the first order. Rich and vibrant multicolored toning envelopes both sides of this GEM Proof Seated Liberty quarter. A watery-type of reflective flash in the fields accenting the strength of the strike. The visual allure of this coin is high end and worthy of CAC approval. While the recorded mintage is 1,000, many were melted as unsold as the nation's political and sectional issues continued to sour, and teetered on the verge of civil war.

PCGS 19, NGC 15, CAC 5. Only a single CAC-approved example has sold in auction, a PCGS-graded coin that sold in October 2020. LOT 30**25C 1966 PCGS MS68 QA**

A GLORIOUS nearly TOP POP! WOW! While more than 821 million quarters fell from the dies in 1966, these are incredibly RARE in top grades. By the time this date was released into circulation, the fad hoarding of bank wrapped rolls by collectors had ended, and when the values of rolls remained at face, they went into circulation, where they still remain. As a contender as one of the FINEST KNOWN, this beauty will fit into any upper tier PCGS Registry Set.

This remarkable SUPERB GEM is very well struck, with full, crisp devices seen on both sides. The surfaces have a satiny brilliant sheen, the fields are frosty and gorgeously toned. Rainbow bands at the peripheries frame the icy, periwinkle-teal iridescent centers. The eye appeal is AMAZING!

PCGS 4, NGC 19. Only one of these PCGS MS68s have sold at public auction, realizing a record \$11,750 in our January 2019 Regency Auction. The current PCGS Price Guide value is listed at \$12,500. LOT 31**50C 1806 POINTED 6, NO STEM PCGS AU53****CAC**

This Red Book variety is represented by just a single die pair, O-109. It is a rather common variety, listed as Rarity-1, but is always in demand from type, date, and variety collectors. This very pleasing CHOICE AU has a great look. Rich, original surfaces are wonderfully toned in a lilac-pewter-dove coloration over problem free surfaces. The warm colors are enlivened by an underlying luster that survives on the lightly worn fields. The strike is bold for the issue and the eye appeal is exceptional for the date.

PCGS 17, NGC 5, CAC 5. This coin brought \$4,113 in our July 2022 Regency Auction and prior to that, it sold for \$4,583 in the 2017 ANA auction. A popular Red Book variety that will delight any collector, especially those putting "everyman" Registry Sets together. Good luck.

LOT 32**50C 1809 III EDGE PCGS MS62****CAC**

A vividly lustrous and brilliant near Condition Census O-109a. The die state and variety are confirmed by the extensive die cracks on the reverse. The 5th Edition Overton-Parsley Condition Census is 66,64,64,63,63, and this PCGS MS62 CAC would rank as the fourth highest listed in the Spring 2022 revision of Stephen Herrman's AMBPR for the O-109A die state.

A strong cartwheel luster blooms boldly from below a layer of dusty pewter patina, with dappled accents of apricot, lilac, rose, and gold. A borderline CHOICE example that has a good, bold strike and pleasing visual allure.

PCGS 10, NGC 2, CAC 1. The current Collectors Universe value is listed at \$13,000 and there are no records for CAC-approved examples sold since the 2016 ANA auction when the Hamilton Collection O-107 sold for \$10,869 in a weaker market. PCGS has graded fewer than a dozen finer, we expect strong bidding for this one.

PCGS# 6094 | EST: \$8,000+

**LOT 33****50C 1811 SMALL 8 PCGS MS62+ CAC**

A fully CHOICE and Condition Census level O-105a. A fabulous early Capped Bust half dollar, this Rarity-2 die state, identified by the dramatic die cracks that encircle the reverse, is a perfect example for type or date purposes. A glowing, satiny brilliance highlights the centers on both sides, as a blush of color clings to the peripheries. The entire surface is dusted with a soft iridescent powder blue and pewter overtone, giving this coin a totally original look.

PCGS 52, NGC 50 (all varieties), CAC 6. PCGS has graded four in MS62+, and the Population figures drop dramatically as the grade goes higher. Only a single non-CAC example in MS62+ ever sold, realizing \$4,730 in Sheridan Downey's January 2018 Mail Bid Sale. The current PCGS Price Guide value is listed at \$4,500 and it would not shock us if this HIGH END coin brought close to that amount. Good luck.

PCGS# 6097 | EST: \$3,600+

LOT 34**50C 1814 PCGS MS62 CAC**

A warm, frosty lustrous O-107 housed in an old green tag holder. This is a very neat coin to look at as the dies came together multiple times before a planchet was fed into the press, resulting in multiple, dramatic clash marks. Pearly silver surface gleam with just a hint of soft iridescent gold that can be detected in a light. The devices show crisp definition and both sides are free from any distracting marks of any kind. The eye appeal is excellent for the MS62 grade.

PCGS 52, NGC 27, CAC 5. Prior to this coin selling in November 2021, an O-103 from the Hamilton Collection (August 2016) was the last PCGS MS62 CAC to sell in auction, which realized \$4,935. The current Collectors Universe value is \$4,400 and it would not be a shock if that level was exceeded when the hammer falls. Good luck.

The eye appeal is excellent!

PCGS 21, NGC 15, CAC 6. Another NGC MS63 CAC example of this die pairing sold in the September 2016 sale of the Hamilton Collection, realizing \$5,405. Today the CAC CPG value is listed at \$5,620 and the Collectors Universe value is \$5,750. It would not be a shock to us if this exceptional coin brought a similar price when the hammer finally falls. It is VERY HIGH END and ultra visually alluring for the assigned grade.

LOT 37**50C 1827 SQUARE BASE 2 PCGS MS65 CAC**

While there were nearly 5.5 million half dollars struck in 1827, utilizing 49 different die combinations, this date is remarkably RARE in GEM; more so than expected after reviewing the populations of other dates of the era. This one is a Condition Census O-106, one of the FINEST KNOWN for the Rarity-2 die marriage. Easily identifiable by the gules extending into the crossbars of the shield and the shape of the top of the 7 in the date.

This GEM is notable for its pastel iridescent rose, violet, and azure overtones. A frosty satin glow highlights smooth, clean surfaces and nicely defined details. There are some areas of uneven striking pressure, as sometimes seen on these screw press struck coins. Some of the star centers and drapery on the bust are soft, but the central definition is very strong. The eye appeal is great--this is not a dark or dull coin in any way.

PCGS 16, NGC 19, CAC 11. The current Collectors Universe value is listed at \$13,500 and the CAC CPG value is listed at \$14,400. Note the most recent example we sold realized \$17,625 in our September 2018 sale of the Konstantine Collection--that was a long time ago already, and the market today overall is stronger, so we would not be surprised if this one brought more than the published figures. VERY RARE any finer, we sold an MS66 in our May 2022 Regency Auction from the Dale Friend for a record \$55,813. Good luck.

PCGS 73, NGC 27, CAC 6. The CAC CPG value is \$3,500 and the PCGS Price Guide value is listed at \$4,000. The last one sold back in January 2019-- the market is much stronger today. Scarce finer, we expect this lovely example to bring a strong bid when it crosses the block.

While deep, the toning is not dull or lifeless. The details are crisp and full, the eye appeal is excellent.

PCGS 21, NGC 12, CAC 5. It has been over five years since the last PCGS MS64 CAC sold in auction, that coin realizing \$2,820 in April 2017. The current Collectors Universe value is listed at \$2,500 and the CAC CPG value is \$2,700. RARE finer, this is an excellent example for a high end set.

We love this coin! This is an old friend from the Dr. Stephen Davidson Collection, December 2021, lot 119, where we described it as:

"This is a great looking, wholly original GEM example of this Antebellum Proof Seated Liberty half dollar. Flashy, watery textured reflective mirrored fields are evenly and attractively toned in pastel peach-rose in the centers and soft lilac-blue at the peripheries. Sharply struck and the eye appeal is especially bold."

PCGS# 6441 | EST: \$2,200+**LOT 46****50C 1885 PCGS PR65 CAC**

A glorious, colorful GEM Proof with a fabulous look! Totally original with a wonderfully dappled mÈlange of color that really pops in the light. Watery reflective fields accent the eye arresting blend of color. Sharply struck up, the definition is better than often encountered and the surfaces are exceptionally clean and free of any distractions. The late date Seated Liberty half dollar series makes for a great short set for the collector. The business strikes, like the Proofs were all struck in Philadelphia, and from 1879 on, the mintages for circulation were tiny, mostly lower than 10,000. In the days before Registry Sets, many collectors looking to include high grade examples in their sets, chose Proofs.

What an AMAZING toned SUPERB GEM example of this first year of the Barber half dollar series. The mintage of 1,245 is the highest of the series, as collectors demanded an example of this first year of issue.

A jazzy mix of colors form a kaleidoscopic-like blend of sultry crimson and seductive teal-blue across the obverse, while the reverse is framed in similar hues, with a vivid untoned, pearly iridescent silver in the center. Thickly and richly frosted devices stand out boldly with sharply struck design types that stand out magnificently against the stark depth and clarity of the surrounding mirrors. A strong glass reveals a tiny line or two under the color, but they have no impact on the OUTSTANDING and gorgeous eye appeal of this SUPERB GEM.

PCGS 2, NGC 0. The other example was CAC-approved and sold in the 2017 ANA auction and while pretty, did not have the depth of vivacious color as this one does. The current PCGS Price Guide value is listed at \$6,500. If you are looking for a gorgeous toned example for your set, take a good look and carefully consider this SUPERB GEM.

THE SOMMELIER COLLECTION

Legend Rare Coin Auctions is honored to sell Part II of the Sommelier Collection of Walking Liberty Half Dollars. We sold the first part, the early dates, in September 2018, a wonderful event that saw very spirited bidding. The second part of the collection, being offered here, is the later dates, starting with 1934 and continuing until the end of the series in 1947. The coins here were all very carefully selected for quality and eye appeal over the course of many years. All the coins are PCGS graded, and all are CAC approved. The coins grade MS66 to MS67+, and all have great eye appeal. Each coin is highly lustrous and has a great strike, particularly on the thumb. If you focus solely on very high end for the grade, Walking Liberty Half Dollars, but do not need to have Top Pop coins, just very PQ examples, these coins are for you.

THE SOMMELIER COLLECTION

Brilliant, satiny frosted mint luster glows on surfaces that are nearly flawless. The devices are generally well struck for the date and the eye appeal is nice! The CAC bean of approval is well deserved on this essentially SUPERB GEM.

PCGS 1561, NGC 754, CAC 336. PCGS has graded 249 in MS66+. Since this date is quite rare finer, we think there is much duplication in the Population at this level. The current PCGS Price Guide value is listed at \$1,000 and it jumps to \$7,500 in MS67. This beautiful example is worthy of strong bids and placement in another great set of Walkers.

50C 1917-D REVERSE PCGS MS65+ CAC

The 17-D Reverse mint mark variety is a MAJOR Condition Rarity; rare in MS65, and in MS65+ or finer, they are excessively so. Tied for SECOND HIGHEST GRADED at PCGS, there are just five that have attained a finer grade at PCGS, all MS66.

A thickly frosted, satiny GEM with a vibrant glowing luster. A subtle, warm clear gold hue graces the pearlescent sheen and a deeper golden-brown at the extreme obverse periphery. Crisply struck up, the details show bold definition on both sides; even Liberty's thumb is separated and partially rounded. The surfaces are smooth and satiny, free of distracting marks of any kind, and the surfaces hold up to even the most intense scrutiny with a strong glass. The eye appeal is wonderful.

PCGS 56, NGC 27, CAC 10. There are five graded MS65+ at PCGS with just five in MS66 finer. We sold the last PCGS MS65+ CAC example nearly three years ago, realizing \$24,675 in December 2019; prior to that one sold for \$43,200. The current PCCS Price Guide value is listed at \$35,000. None of the MS66s have been approved by CAC and the last PCGS MS66 sold back in 2015. If you demand the best PCGS/CAC Walkers, you will not get a finer one than this one. Good luck.

50C 1917-S OBVERSE PCGS MS65+ CAC

A truly SUBLIME example! Among the half dozen FINEST graded at PCGS, this is an impressive example of this early Walker date. Representing a short lived subtype with the mintmark on the obverse, the 17-S is a conditionally challenging issue that is genuinely RARE in GEM and excessively so any finer than MS65.

A warm satiny mint frost shows a brilliant glow and satin sheen on both sides. Antique silver surfaces have hints of iridescent toning that comes to the fore when the light hits the surfaces at different angles. The design types are sharply impressed by an exacting blow from the dies, and the surfaces are essentially pristine with no serious flaws of any kind to be found, even with the aid of a strong glass and the eye appeal is sensational.

PCGS 53, NGC 31, CAC 13. This is the ONLY MS65+ graded at PCGS and there are just five finer. This coin has not sold in auction, but a PCGS MS65 CAC sold in May 2022 for \$22,800 and a PCGS MS66 CAC sold in March 2019 for \$43,475. In MS65+ the PCGS Price Guide value is listed at \$35,000. We think this coin will bring in excess of that amount. If you are building a top ranking Walker set, do not let this GEM pass you by!

A thick, satiny brilliance blooms boldly on both sides of this PQ GEM. A strong mint luster highlights sharply struck devices and smooth surfaces. The fields show heavy die polish lines, which account for the semi-reflective, flashy texture to the brilliance. Some delicate frosty white iridescence attests to the originality of this highly desirable and conditionally rare issue.

PCGS 62, NGC 32, CAC 18. The current CAC CPG value is listed at \$6,560 and the PCGS Price Guide value is listed at \$5,500. It's been over three years since the last PCGS/CAC example has sold, making that result irrelevant in the current market. There are only 9 in MS66+ and two in MS67 graded higher. What a FABULOUS, high end SUPERB GEM 1936-D Walker! Seldom encountered so fine, especially with CAC approval, this date is ultra rare any finer!

The surfaces are clearly above average in terms of cleanliness and satiny texture. You don't need a strong glass to see how delightfully hit free the surfaces are. You do NOT need a glass to see the split in the thumb. The eye appeal is exceptional!

This 1936-S Walker is absolutely AMAZING and tied for FINEST GRADED at PCGS! This coin absolutely borders on MS68 (and at the very least deserves a +). PCGS must have been off its game the day this coin came through (we make no promises)!

Absolutely flawless surfaces are totally superior to what you see even on common dates. Even the dreaded right field is totally untouched-something unheard of. We're really not sure as to what is holding this coin back from a 67+ or higher. The texture of the surfaces is a creamy/satiny look. A full booming and glowing luster beams vividly from all over. Both sides are an original white. Miss Liberty and the details are almost 3-D in strike and fully stand out. No glass needed to see the full thumb or head. The eye appeal is jaw dropping! We have not been able to stop staring at this coin.

PCGS 23, NGC 24, CAC 12. The most recent example sold for \$34,800 in May 2022 and the current CAC CPG value is \$31,200. We cannot imagine a better 1936-S. With PCGS in operation for over 35 years, we highly doubt there ever will be a finer piece found. If you are building a world class collection of Walkers, this is a "must have". This coin blows away many common dates in higher grade (seeing is believing). Bidding will be fierce for this SUPERB GEM! Good luck.

Silky smooth and super clean surfaces are a delight to see. Even the dreaded right obverse field is exceedingly clean (just some invisible frost breaks). Both sides have a bold glowing luster. The surfaces are an ORIGINAL creamy white. Miss Liberty and the details are frosty and have strong strikes that stand out. The eye appeal is exceptional!

The surfaces are truly AMAZING! Even with a powerful loupe you will be unable to locate even the most microscopic of ticks or frost breaks, anywhere on either side. Satiny smooth surfaces offer the richest satin sheen that is imbued with a strong mint brilliance. A delicate kiss of clear gold and the softest pastel iridescence caresses the peripheries. A sharp strike rendered all the details, including Liberty's thumb to bold relief. The eye appeal is first class!

\$1 1795 B-5 BB-27 3 LEAVES PCGS MS61 CAC

This glorious Mint State 1795 Flowing Hair dollar is a truly wonderful example of this first silver dollar type struck by the Philadelphia mint in the early days of the federal republic. George Washington was still President when this remarkable coin came off the dies, and has been lovingly cared for over the years, escaping the ravages of time, circulation, and careless handling. Truly wicked cool!

First, the technical quality is all there. This is not a glorified AU58 coin that was "pushed" into a Mint State holder. Superb surfaces for the grade, devoid of lines, ticks or scuffs of any kind. Nicely struck on a quality planchet, there are no mint made adjustment marks found anywhere either and there is just the slightest bluntness of strike on the eagle's breast feathers. A strong underlying luster glows under a wonderful and totally original mix of golden-russet, pale pewter, powder blue, and soft lilac accents. A few darker toning dots are seen as well, aiding as pedigree markers. A thoroughly delightful early dollar in true Mint State grade.

PCGS 5, NGC 10, CAC 1. This coin last sold in our Regency Auction IV back in July 2013 for \$92,000, well above the current published levels, and we believe this coin will bring a bid over the PCGS and CAC CPG values. Of course the number of CAC-approved Mint State Flowing Hair dollars is minuscule and RARELY appear in auction, and they bring very strong premiums over their non-CAC counterparts. Magnificent for your type or early dollar date set, we know there will be a fierce competition to take this one home. Good luck.

Richly and deeply toned, especially on the reverse, this is an exceptional quality coin for the grade, devoid of the cleaning, tooling, scratches, heavy marks, or other issues that are commonly seen on these early dollars. Evenly struck, showing nicely defined details, even with its moderate circulation. Very pleasing indeed, making this a great type coin for the collector.

PCGS 260, NGC 157, CAC 37. The current CAC CPG value is listed at \$6,120 and the PCGS Price Guide value is \$4,500; don't let the Pops fool you, the last PCGS/CAC example sold over two years ago! A classic collector grade type coin worthy of any carefully selected type or date set.

A Condition Census level B-19, BB-155, a challenging Rarity-5 die pairing. This coin has a very high end look, and though not listed in the 2013 listing of Dave Bowers' list of Notable Specimens, noted numismatic scholar Ron Guth places this one as #2 in his census, behind the Anderson-Dupont-Norweb-Cardinal Collection coin, and in front of the Hesselgesser and Warren Miller pieces. Indeed, our consignor said that Warren Miller told him this coin is finer than the coin in his famed collection.

A borderline Mint State example, the friction is only perceptible with the aid of a glass. A wealth of luster glows with a bold emberlike brilliance in the protected recesses of the design elements. A dusting of pewter and soft dove gray toning is joined by light golden accents and accents of lilac that come out as you rotate the surfaces in a light. Nicely struck from an advanced state of the dies (Die State IV) with extensive obverse die cracks. A glass reveals a few light lines and a tick or two, none of which are of any consequence. The eye appeal is great.

PCGS 99, NGC 88, CAC 24. Its been five years since a PCGS/CAC example has sold in auction, realizing \$18,000 in November 2017. More recently we sold a non-CAC example from the Dale Friend Collection, April 2022 for \$22,913, which is well above the PCGS and CAC CPG values. A frosty Seated Liberty dollar that shows a wealth of pearly silver and glints of gold. Satiny lustrous fields are noted while the devices are loaded with a thick frost. Boldly struck throughout with sharp claws on the eagle and all the stars crisply defined. A condition rarity at this grade level and a date which is seldom seen any finer.

PCGS 19, NGC 13. The last NGC-graded example sold nearly nine years ago, realizing \$7,638 in the 2014 FUN auction. The last NGC MS65 sold in August 2006! Clearly high grade NGC coins rarely come to market. The current Collectors Universe value is listed at \$7,500. Good luck.

The eye appeal is quite pleasing, free of any serious marks. In 1873, Congress passed a law, that among other items, ended the coinage of silver dollars and commenced the striking of Trade dollars.

PCGS 17, NGC 20. This coin most recently sold as part of our offering of the M&S Petty Collection, where it brought \$5,170 in our July 2022 Regency Auction and we think it should sell for more today. A truly gorgeous and SUPER HIGH END 1875-S Trade dollar! We rank this coin as being in the top 5% for the grade--it is that impressive! PCGS, after more than 35 years of grading coins has graded fewer than a dozen examples in MS66 or finer grades! This one is housed in an old green tag holder.

Superior surfaces have faint traces of semi-Prooflike mirrors, yet are satiny smooth with an intensely lustrous mint brilliance. Even if you use a strong glass and look and look you will not find any serious marks, ticks, or problems. The centers are an original creamy white and there is some light golden toning on the reverse. Miss Liberty and the details are frosty and are fully struck. The eye appeal is fantastic!

PCGS 7, NGC 4, CAC 4. Prior to this PQ GEM selling, we sold the last one in October 2020 for \$22,325. The current PCGS Price Guide value is listed at \$25,000. A remarkable example of this popular and scarce overdate. Splashes and waves of magenta, teal, violet, and tangerine, contrast against a vibrant lemon-yellow golden tone that covers the obverse. We rate the color an 8.5++ on our 10-point color scale. Planchet rolling lines are noted under the color (as made my the mint). Nicely struck devices and full frosted luster add to the GEM visual allure!

PCGS 596, NGC 146. Scarce finer, but RARE with this kind of color. We think this GEM is due for a strong bid from the toned dollar specialist. Good luck.

**LOT 115****\$1 1880-S PCGS MS66 CAC**

First off, we think this brilliant PQ GEM is deserving of a PL designation. The fields are vibrantly lustrous and flashy with full Prooflike mirrors on both sides. The intense brilliance brings the obverse colors to life. Pale apricot gold and peachy-rose dominate the central obverse while a ring of deeper orange, purple, and blue toning creates a gorgeous frame. The reverse is generally blast white and at certain angles, it has an almost cameo look. There are a few very minor ticks and giggles found with the aid of a strong glass, but they are not distracting in any way. The eye appeal is superior to many MS66 80-S dollars.

PCGS# 7118 | EST: \$1,000+

LOT 116**\$1 1880-S PCGS MS66+ CAC**

Flashy brilliant underlying luster is borderline Prooflike, indeed we would not be shocked if one day it got the PL designation. Beautifully toned on the obverse with dappled pastel golds, pinks, violets, lilacs, and other light iridescent hues. This GEM is essentially of SUPERB quality and we rate the color a 9 on our 10-point scale. The eye appeal is truly exceptional.

What a great coin for any toned dollar specialist, the eye appeal is SUPERB, and this borderline SUPERB GEM brought \$1,234 in our Regency Auction 50.

PCGS# 7118 | EST: \$1,000+

LOT 117**\$1 1880-S PCGS MS67 DMPL**

Holy blistering white hot luster! Blazing, beaming DMPL mirrored fields; snowy frosted white devices. WOW! This coin has the whole package.

Minty fresh surfaces are a dream to behold! The fields are sleek and flashy with a bold reflection that is amplified by a intensely rolling cartwheel brilliance. The sharply struck devices stand out with a thick, creamy frost that stands out in stark 3D contrast to the surrounding fields. A dusting of delicate iridescent clear gold adds to the exceptional eye appeal of this stunning SUPERB DMPL GEM. Housed in an old green tag holder. VERY RARE this fine!

PCGS 28, NGC 18. The Bob Simpson coin was the most recent example to sell, realizing \$6,600 in August 2021. Prior to that, the last non-CAC example sold in August 2011. That is RARE. PCGS lists a value at \$9,000. There are a mere 3 finer, the most recent one, a PCGS MS68 DMPL sold back in 2005! Good luck.

PCGS# 97119 | EST: \$8,000+

LOT 118**\$1 1881 PCGS MS66+**

This is a RARE Morgan dollar indeed! While not a rare date per se, the 1881 is challenging above MS66. It is also a date that does not often come with colorful toning. This PQ GEM MS66+ has bold splashes of patina on both sides, each one with a unique palette and pattern. The obverse is adorned with a verdant array of colors, a veritable walk through an enchanted forest of greens, from teal to emerald and clover that come across as waves and freckles. The reverse is even more dramatic with splashes and streaks of blue, purple, and tangerine. Both sides rate an 8.5+ on our 10-point color scale. The colors are brought to life by a bold mint brilliance. The eye appeal is truly unique.

PCGS 54, NGC 11. There are just 10 finer. You can disregard the PCGS Price Guide value of \$4,750 and it jumps to \$21,000 in MS67. But that is just part of the story. Since this is a date that rarely comes with colorful toning, toned dollar specialists take note and bid accordingly!

PCGS# 7124 | EST: \$4,000+

**LOT 119****\$1 1881-S PCGS MS64+ CAC**

A virtual GEM with great color and bold luster. A burst of deep cranberry and raspberry red coloration is interrupted by pale tangerine then forms a band of emerald, blue, and gold. The toning pattern covers about 50% of the obverse yielding to the ultra brilliant untoned S-mint luster that rolls around in abundant cartwheels. The color rates an 8.5+ on our 10-point color scale. A few old bag marks on the chin can be seen with effort and a strong glass, which account for the assigned grade. The eye appeal is excellent and this MS64+ is well deserving of its CAC bean and a strong bid.

PCGS# 7130 | EST: \$1,000+

**LOT 120****\$1 1881-S PCGS MS65 CAC**

This 81-S has a great look! It is a truly gorgeous multicolored toned GEM! Mostly bathed in neon greens and blues, there are very distinct splashes of tangerine, magenta, and golden tones. A stunning luster brings all the colors out to their finest advantage. We rate the color a 9+ on our 10-point color scale. The eye appeal is exceptionally bold and very high end. The strike is razor sharp and frosty, and the surfaces are very clean and high end for the MS65 grade assigned. Housed in an earlier generation blue tag PCGS encapsulation.

We love the look of this GEM and any picky toned dollar collector will too. Worthy of a strong bid, we expect our estimate will easily be exceeded when the hammer drops. We have sold a large number of 81-S dollars in MS65 with stunning toning that have brought a very wide range of APRs.

PCGS# 7130 | EST: \$1,500+

**LOT 121****\$1 1881-S PCGS MS67 CAC**

Waves of blue, purple, amber, rose, and gold tones are brought to vivid life by a sensational swirling cartwheel brilliance. The tones are more of a pastel hue and iridescent in its intensity, but it still rates an 8+ on our 10-point color scale. In addition to the color, this coin is worthy of its lofty MS67 SUPERB grade and CAC bean.

While we have sold many 81-S toners in MS67, there is a wide range of APRs that are well in excess of the current PCGS Price Guide values. This wonderfully toned SUEPRB GEM will bring a very strong bid when the hammer falls. Good luck.

PCGS# 7130 | EST: \$1,500+

**LOT 122****\$1 1881-S PCGS MS67+ PL CAC**

What a GREAT looking Morgan dollar! The sharply struck devices boldly stand out with a moderate contrast. The eye appeal is exquisite! Parallel bands of neon greens, pinks, and blues streak the left 1/3 of the obverse, while the reverse is ringed by a gentle kiss of rainbow. The color rates an 8.5++ on our 10-point scale and the eye appeal is excellent!

PCGS 95, NGC 128, CAC 40. There are just 9 in MS67+ PL and just five in MS68 PL finer. The PCGS Price Guide value is listed at \$3,600 and this coin will exceed that easily. Good luck!

PCGS# 7134 | EST: \$3,200+**LOT 124****\$1 1882-S PCGS MS66+ CAC**

This luster bomb will entice strong bidding for sure.

PCGS# 7140 | EST: \$800+

**LOT 127****\$1 1882-S PCGS MS67+ CAC**

A very high end and lofty graded SUPERB GEM. Clearly this bag toned example had another coin sitting on about half the obverse surface, blocking Mother Nature from doing her magic. The area that is toned shows arching bands of color, filled in with wider bands of gold and blue, which really come to life as you rotate the brilliant surfaces in the light. The eye appeal is excellent.

PCGS 1364, NGC 2027, CAC 548. There are 203 graded MS67+ and just 91 graded higher. This pleasing toned SUPERB GEM should bring well in excess of the current PCGS Price Guide value of \$2,200 when the hammer falls. Good luck.

A truly unique GSA toner, a near-GEM 83-O housed in the lesser known "soft pack" holder. While the Carson City dollars from the GSA hoard of the early 70s, a smaller number of New Orleans mint coins were discovered in bags and placed soft, plastic holders. This example is beautifully toned on the obverse, rich streaks of rainbow toing. The obverse rates a 9+ on our 10-point color scale. \$1 1878 7TF REVERSE OF 1878 PCGS PR65 CAM CAC

WOW! Everything about this first year Proof Morgan is stunning and exceptional! From the technical standpoint to the visual quality, this GEM is all there and then some! Experts have contested the number of Proof examples of this variety struck, with the estimate being between 200 and 300. Today, we can tell that the number of survivors is much lower, many were likely unsold at the mint and melted, and others lost to ravages of time. Cameo Proofs of this date are EXTREMELY RARE, and much coveted by today's collectors.

Very high end and totally original, a glaze of the clearest gold toning across the centers and deeper at the peripheries attest to this. Extraordinary mirrors are deep, crystal clear, clean, impressively reflective and reveal no imperfections of any kind. Miss Liberty and the details are frosty and razor sharp. The frost is so thick that the contrast is bold, dramatic, and adds to the amazing visual effect.

PCGS 7, NGC 5, CAC 3. The last example in this grade that we had the pleasure of selling was back in our February 2015 Regency Auction were one brought \$49,938. A different example sold in April 2021 for \$36,000. Today the CAC CPG value is listed at \$43,200 and the Collectors Universe value is \$47,500. The surfaces are clean and free of anything more than a stray line that needs a glass to find. A blush of amber-gold and traces of blue toning at the periphery attest to the originality and adds to the outstanding eye appeal.

Only 811 Proofs were struck. PCGS 7, NGC 8, CAC 6. The most recent example to sell in auction brought \$11,400 in May 2022. The current PCGS Price Guide value is \$13,750. There are just eight coins finer in the CAM designation, this PQ GEM is worthy of a great set. Bid accordingly.

Ex JFS Collection, as noted on the insert.

As anyone with experience with Proof Morgan dollars knows, the 1902-04 Proofs are often drab with dull or ugly toning. This SUPERB GEM is not your typical 1902!

You can't beat this coin's bold flash! Boasting superior, deep mirrors are also crystal clear, clean, and intensely reflective. The mirrors beam from all over and the flash on this coin is better than the majority you'll ever see!

Outrageous, circular deep blue/violet colors meld with tangerine/gold. Miss Liberty and the details boldly stand out with commanding strikes and light, silvery frost. The eye appeal is amazing!

A fabulous example! Tied for second HIGHEST graded at PCGS and for a 22-D this coin is all there and then some!

A thick, frosty luster blooms with a vibrance that is not usually seen on this date. Each detail is sharply struck up, showing full, crisp definition on both sides. Steely-silver surfaces gleam with a delicate dusting of iridescent white color. Struck from a later die state with dramatic obverse die cracks crossing the truncation of Liberty's bust. A few scattered traces of contact are seen with a strong glass, but none are singularly distracting to the eye. The visual effect is bold!

PCGS 330, NGC 264, CAC 83. There are 52 in MS66+ (no doubt including much duplication of submissions in hopes of a higher grade) and just three are graded MS67 finer at PCGS. Recent PCGS MS66+ CAC examples sold for \$8,100 and \$7,800 and the current PCGS Price Guide value is listed at \$8,250. LOT 148**\$1 1922-S PCGS MS65+ CAC**

Despite a very healthy mintage of nearly 14.5 million, the 1922-S dollar is a true condition rarity in GEM grade or better.

This satiny, pearly silver coin takes on an opalescent sheen when rotated in a light. A dusting of soft lilac-pewter, antique silver, pale gold and subtle iridescent pastel hues come together, giving this a great look. The surfaces are generally clean and do not have any singularly distracting marks. Liberty's hair tresses are fully formed and crisp in definition, but the eagle's feather details are just slightly flat, as typically seen. The eye appeal is great!

PCGS 530, NGC 274, CAC 70. PCGS has graded 60 in MS65+ and just 26 finer. The most recent example sold for \$8,400 in the 2022 FUN Auction and prior to that, one sold in January 2021 for \$9,000. GEM ORIGINAL 1860 PROOF SET. PCGS PR64+ - PR66 CAC

What an AWESOME opportunity! If you missed this numismatic rarity, here is a rarely offered second chance! A GEM original MATCHED Proof Set from before the Civil War from our March 2019 Regency Auction,

Ex Young-Dakota Collection, as noted on the inserts.

This set should be named "the miracle set" as it is a wonder how it even exists today. When is the last time you remember seeing an 1860 Proof Set? We only remember one other, and that was in a huge group that had been bought directly from the Mint, and was dispersed over 20 years ago. Sets like this really are the last frontier of numismatics! The vast majority of these sets have been broken up as more collectors became more series focused thanks to the Registry Set programs.

1C PCGS PR65 CAC. Strong mirrors beam boldly all over. The mirrors are clean and have good clarity. Both sides are evenly covered by a moderate layer of original colors. The colors include gold/green/pale violet. This is not a dull or drab coin. Every detail stands out with needle sharp strike. The eye appeal is great!

3CS PCGS PR64+ CAMEO CAC. For a smaller coin, the mirrors have big coin flash! The mirrors have good clarity and are pretty clean. Only using a strong glass can you see some lines and toning dots. The details steal the show with an incredible frosty strike. To find this date in cameo-really rare.

H10C PCGS PR66+ CAC. What a darling of a coin. As with all the other coins, this too has incredibly flashy mirrors. We see no reason why it's not in a PR67 holder (no promises). The colors are the same as the other silver coins, only this coin has a blush of blue. This coin is super pretty.

10C PCGS PR65+ CAC. There really is nothing wrong here except the toning is slightly darker. This is NOT a dull or drab coin as the mirrors powerfully beam from all over. The toning is the same deeper navy/reddish gold/forest green as the other silver coins. Here too every detail is needle sharp in strike.

25C PCGS PR64+ CAMEO CAC. This is a VERY high-end coin. It has a little irregular toning so PCGS was very tough on it. It is the same colors as the other silver coins. No question this piece is a full cameo. The details are sharply struck, and the frost is clearly evident. Very rare coin to find even as a single!

50C PCGS PR66 CAC. The mirrors boldly beam from all over. They are incredibly clean and super clear. We think because the toning is slightly darker PCGS would not grade this coin a PR67 (which technically it is). The colors are the same as the other silver coins. You can tell the sharply struck details all have thick frost. The coin does have good eye appeal.

\$1 PCGS PR65+ CAC. Strong mirrors blaze though thick and deeper toning (same as on the other coins). You can easily tell this coin has sat undisturbed for many years. The mirrors are clean and smooth. The toning on this piece is slightly more dusky than the others in the center. It's still a good-looking coin!

While the current Collectors Universe value is a total of \$62,250, this set brought a remarkable \$70,500 in our March 2019 Regency Auction (on an estimate of \$50,000-\$55,000). Today, we would not be surprised if that level was surpassed! This is an opportunity that may not happen again for a long time! Good luck.

LOT 151**G\$1 1849-D NGC MS64**

An historic offering! This is an important first year of the gold dollar denomination struck at the always popular Dahlonega mint. While the mintage was only 21,588, its first year status led a fair number of examples to be saved at the time of issue and Doug Winter rates this as the most common Dahlonega mint date in Mint State. That said, in this lofty state of preservation, it is VERY RARE and VERY RARELY offered! WOW!

Ranking among the top ten examples seen at NGC with just a single MS65 graded higher at that service, this is a truly majestic specimen. Boldly lustrous throughout, the central devices are smooth and vivid, with a band of slightly rougher (as made) textured surfaces near the periphery (this is a feature that is often seen on examples of this date/mint). A bright golden surface overall displays hints of olive that adds dramatically to the great visual allure. The devices are crisply rendered by a strong strike and the eye appeal is exceptional in every way.

PCGS 3, NGC 9. Given the dearth of auction appearances over the last 22 years, we believe the NGC Census figures are inflated somewhat. The last NGC graded example sold nearly a decade ago (April 2013), and the last PCGS-graded example sold even farther back in March 2006! The current Collectors Universe value is listed at \$45,000. There is a single NGC MS65 finer, a coin that has not appeared in auction. This is a very important first year of the denomination and a very popular branch mint issue. Good luck.

PCGS# 7507 | EST: \$30,000+

LOT 152**G\$1 1870-S PCGS MS62**

This is a RARE date gold dollar from an original mintage of 3,000. Today, survivors in Choice Mint State or finer are extremely rare, and there are none finer than MS66 at PCGS. A rich orange-gold patination is accented by a bold underlying luster. The surfaces are minimally abraded and the eye appeal is excellent for the assigned grade.

PCGS 20, NGC 11. The most recent example sold in April 2020 realizing \$6,300. The current PCGS Price Guide value is \$6,500. Just 21 are graded higher at PCGS, no doubt these Population figures include some duplication of submissions. This attractive MS62 example will fit nicely in any set of gold dollars.

PCGS# 7570 | EST: \$5,250+

**LOT 153****G\$1 1884 PCGS PR66 CAM CAC**

An awesome looking and high end GEM Proof gold dollar. Ample, deep golden reflection blazes boldly on both sides of this incredibly well preserved and Premium Quality GEM Cameo Proof. The brilliant mirrors contrast sensationaly against the frosted reliefs. The surfaces are nearly PRISTINE and even a strong glass fails to reveal even a single line or tick worthy of mention.

Only 1,006 Proofs were struck. PCGS 10, NGC 7, CAC 7. It has been three years since the most recent example sold in auction, realizing \$10,800 in the 2019 ANA Auction. Prior to that, there are records at \$12,000. Today, the CAC CPG value is listed at \$13,000 and the Collectors Universe value at \$15,250. Only a half dozen examples are graded higher in the designation, all PR67 CAM and no doubt include some duplication of submissions. This incredible GEM is worthy of strong bidding and placement in a fantastic set. Good luck.

PCGS# 87634 | EST: \$11,000+

**LOT 154****\$2.50 1845 NGC MS64 CAC**

An incredibly well preserved, high end, VERY CHOICE example of this date, and ranking among the Condition Census for the date, and the FINEST approved by CAC. Housed in an old NGC "fatty" holder, this coin has a great look. A lower mintage overall, but at 91,051 it is one of the larger issues from the era to come from the Philadelphia mint. That said, any Mint State coin is challenging to find, and in this lofty state of preservation, the 1845 quarter eagle is VERY RARE. Tied with the two finest in the Bass Collections (Parts II and IV), the Norweb coin was raw in 1988 when it sold but was called "MS64". The Eliasberg coin was called "AU55 obverse, MS60 reverse."

A vivacious and brilliant deep golden luster beams all over. Clearly the color is totally original and exceptional. The strike is crisp and mostly full, with just a touch of weakness on the eagle's leg. Over all the surfaces are very clean, as expected, and would be a GEM and tied for FINEST if it were not for a tiny mark next to the 1 in the date and some very light traces of contact on the reverse that have no impact on the outstanding visual allure. WOW!

PCGS 6, NGC 7, CAC 2. This coin is the most recent MS64 to sell, realizing \$13,250 in June 2022. Prior to that, this coin was last sold back in 2014. Just a single NGC MS65 is graded finer at all services.

PCGS# 7737 | EST: \$13,000+

LOT 155**\$2.50 1846-D NGC MS62**

This is an important example of this conditionally rare Dahlonega mint quarter eagle. While 19,303 were originally struck, these went right into circulation, and while there are a small number known in Mint State, these are VERY RARE. The presently offered example ranks among the top half dozen examples graded by NGC.

The surfaces are "crusty" and original with a hint of flashy near-Prooflike reflective luster underneath the toning. Sharply impressed devices show full definition on both sides, crisply rendered from a blow from a broken reverse die. The eye appeal is incredible for this issue.

PCGS 3, NGC 3. There has not been an NGC-graded MS62 sold since September 2011! The current Collectors Universe value is listed at \$22,500. There are just three coins graded higher, none of which have sold in nearly a generation! It should also be noted that nothing finer than MS61 has sold in a PCGS holder since 2004! Good luck.

PCGS# 7742 | EST: \$15,000+

LOT 156**\$2.50 1861 NEW REVERSE NGC MS63 CAC**

This is very high end for the assigned grade example of this popular Civil War era gold coin. While many of the gold coins of the era are low mintage or very rare in high grade, the 1861 quarter eagle is relatively available even in CHOICE Mint State and this one has a great look. A strong luster with hints of Prooflike flash and reflection beam all over. An early die state with planchet roller marks and die striations seen in the fields. The devices are crisp and the surfaces are devoid of serious contact that would impair the great eye appeal.

PCGS 217, NGC 64, CAC 40. Most recent NGC/CAC example sold seemingly ages ago in February 2019. More recently, a PCGS/CAC example sold in April 2022 for \$2,520, well above the published levels. We expect this impressive coin will likewise see a premium bid. Good luck.

PCGS# 7794 | EST: \$1,200+

LOT 157**\$2.50 1902 PCGS MS67+ CAC**

Tied for second FINEST graded at PCGS and the FINEST with CAC approval! This coin probably looks exactly like it did the day it left the mint.

Remarkable surfaces are exceedingly clean and have a satiny smooth texture. Using a strong glass we found only the tiniest of ticks, none of which are distracting in anyway. A glowing luster beams nicely from all over. Both sides are a SUPERB GEM original mix of soft gold/pale yellow gold colors. You can clearly see this coin has never been messed with. Miss Liberty and all of the details are frosty and are sharply struck. The eye appeal is truly exceptional in every respect!

PCGS 66, NGC 69, CAC 23. There are just 8 graded MS67+ at PCGS, the most recent of these sold back in the 2017 FUN auction, realizing \$7,344. Neither of the two MS68s graded at PCGS, nor the seven at NGC, have been approved by CAC. This is an important opportunity for the advanced collector seeking the BEST quality CAC-approved gold coins! Good luck.

PCGS# 7854 | EST: \$7,000+

LOT 158

\$2.50 1884 PCGS PR65 CAM CAC

A truly exceptional GEM Proof 1884 quarter eagle. Only 73 examples were struck for collectors, and today, fewer than half are thought to survive to the present time, precious few of which can come close to the stunning technical quality and visual allure of the current offering.

The deeply reflective fields are vivid in their brilliance, contrasting boldly against the frosted texture of the crisply defined reliefs. The fields are smooth, save for the highly desired orange-peal texture created at the mint. Some minor lines are picked up by a strong glass but their impact on this world class GEM Cameo Proof's visual effect is so minor that they are easily overlooked. This is a truly AMAZING piece of "numismatic caviar" and a beauty worthy of the greatest collections.

Only 73 Proofs were struck. PCGS 2, NGC 3, CAC 1. This coin sold seven years ago in the 2015 Stack's Bowers ANA Auction for \$27,025. The current PCGS Price Guide is \$32,500 and the CAC CPG value is a similar \$32,400. PCGS has graded five examples finer, no doubt including some duplication of submissions. A truly magnificent specimen that will delight even the most fastidious collector. Good luck.

THE EUEL DURWOOD JONES COLLECTION

Legend Rare Coin Auctions is honored to have been consigned the Euel Durwood Jones Collection of U.S. Gold Coins. Born in 1942, Euel Durwood "Woody" Jones II served in the U.S. Army Field Artillery Branch during the mid-1960s, where he was stationed in Turkey. Upon discharge, he returned to his native South Carolina where he spent the next five decades variously working in banking, travel, and custom indoor plantation shutter sales. While always maintaining a keen interest in coins, Woody did not truly begin to amass his collection until the last thirty years of his life during which he acquired many interesting pieces of all descriptions. Never one to focus on any one particular type of coin, he enjoyed the variety of his collection and the rarity of certain individual coins. It was a labor of love.

The coins consigned to this sale include the #12 NGC

Registry Set of Indian Head quarter eagles, presented here as it is listed on the Set Registry, as the E.D.J. Set. Each of the coins is a well matched Gem example. The 1911-D is a 65; the 1912 is a 66. The 1911-D was a particularly special coin to Mr. Jones.

Outside of his Gem Set of Indian Head quarter eagles, Mr. Jones acquired a small number of other gem gold coins, including the tied for finest 1893-S double eagle, a PCGS MS65 CAC example that is ex Dallas Bank Collection, and served as the David Akers Plate Coin in his monumental work to U.S. gold coins, published originally in 1982 and still serves as a standard reference in the U.S. Gold series.

Once sold, it may be quite some time before similar coins appear in the marketplace. On behalf of the Jones family, we wish the bidders good luck and congratulations to the winners.

LOT 159**\$2.50 1908 NGC MS65**

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

A very pleasing GEM example from the first year of issue for the Bela Lyon Pratt designed Indian Head quarter eagle. The details are deeply impressed into the surfaces, the incuse features sharp and nicely defined throughout. The satiny mint brilliance glows boldly enlivening the deeper orange and soft rose-gold accents seen in the fields. The surfaces are generally clean, the only marks of consequence, noted for the sake of full disclosure, are a tiny tick on the reverse rim at 9:00 and some very light lines that can only be seen with the aid of a strong glass. What a great way to start this set.

PCGS 596, NGC 361. The most recent NGC-graded example realized \$3,600 in April 2021 . The current Collectors Universe value is listed at \$5,000 and the NGC Price Guide value is listed at \$5,150. Take a good look at this GEM and bid accordingly. Good luck.

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

A totally original "PLUS" graded GEM that also boasts CAC approval. This date is conditionally challenging in GEM and RARE finer than MS65.

Boasting a bold mint luster on both sides, enveloping the satiny smooth surfaces in a sensational brilliance. Wonderfully toned with variegated golden toning hugs the fields and flows into the deeply pressed incuse devices. The fields are clean, free of any distracting marks and the eye appeal is simply stunning.

PCGS 249, NGC 218, CAC 55. NGC has graded just 18 in MS65+ and the most recent example sold nearly two years ago, realizing \$7,800. The current Collectors Universe value is listed at \$8,500. We expect very strong bidding for this CAC approved PQ GEM. This date is VERY RARE finer.

LOT 161**\$2.50 1910 NGC MS65**

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

The 1910 is a very challenging date in GEM grade and is extremely rare any finer. The E.D.J. Set coin offered here has a wonderful orange-gold and khaki gold coloration on both sides. The details are crisp and boldly impressed, with even the finest details nicely rendered. A strong satiny mint frost blooms with a strong luster on both sides. The color really pops in a light. A powerful loupe and careful inspection will reveal a few insignificant traces of contact that are not at all distracting to the eye appeal. \n\nPCGS 139, NGC 196. Two examples sold in October 2021 for \$4,320 and \$4,550. The current Collectors Universe value is listed at \$6,500 and the NGC Price Guide value is \$6,175. This is an important date that is rarely offered finer. Good luck.

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

A rich, totally original deeper yellow-golden colored GEM Indian Head quarter eagle. A bold and brilliant luster glows on both sides of this lovely coin. The surfaces are sharply struck with the incuse devices deeply impressed. The eye appeal is great. VERY RARE finer, the 1911 is surprisingly difficult to locate in GEM or better grades.

PCGS 165, NGC 173. We sold the most recent NGC-graded example for \$4,818 in January 2022. Prior to that, one sold in August 2021 for \$5,040 and another sold in January 2022 for \$5,400. The current NGC Price Guide value is listed at \$6,275 and the Collectors Universe value is listed at \$9,000. This one is actually nicer than the one we sold earlier this year, and should bring more.

\$2.50 1911-D STRONG D NGC MS65

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES
COLLECTION

With a mintage of only 55,600 the 1911-D quarter eagle is the undisputed KEY to the Indian Head series. This date is always in constant demand from collectors, regardless of condition; from problematic, circulated pieces to GEM examples such as the one offered here. Only five examples have graded finer at NGC, there is no doubt of duplication in the Census data.

At first glance, you might think it's a common date Gem-grade example because it is so nice. Save for a few minor traces of microscopic contact, the surfaces on BOTH sides are virtually immaculate. We cannot stress enough how clean (which is highly unusual) the dreaded right reverse is. The luster is generally bold and brilliant. This coin is totally original and has never been dipped, both sides are an even moderate gold with warm orange overtones; there are NO spots or discolorations anywhere. All of the details are sharply struck and are visible to the naked eye. The eye appeal is great!

PCGS 28, NGC 78. The most recent NGC MS65 examples realized \$45,600 and \$46,800 in January and July 2022. The current NGC Price Guide value is \$66,500 and the Collectors Universe value is \$75,000. NGC has graded just a half a dozen finer of this important KEY issue, and this attractive GEM is worthy of a very strong bid.

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES
COLLECTION

An AMAZING Condition Census example of this conditionally VERY RARE date. Tied for FINEST graded by NGC, this is an impressive specimen that will delight any advanced Indian Head quarter eagle collector.

Deeper orange toning mixes with lighter gold and iridescent highlights are brought out by a radiant and brilliant luster. A razor sharp strike left every detail deeply impressed. A minor tick or two can be located with the aid of a strong glass, but they have minimal impact on the outstanding visual allure of this Premium-grade GEM!

PCGS 4, NGC 4. No NGC-graded MS66 has ever sold in auction, and no PCGS MS66 has sold since 2015. We sold a PCGS MS65+ CAC in our Regency Auction 50 for \$34,075. The current NGC Price Guide value is listed at \$29,000 and the Collectors Universe value is listed at \$35,000. An important opportunity that cannot be missed. NGC has not graded any example finer than the presently offered GEM. Good luck.

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

A vibrant, satiny lustrous glow radiates boldly on both sides of this lovely toned GEM. The devices show full, crisp definition on both sides and the eye appeal is quite nice. While a strong glass aids in the location of some minor traces of contact, none of these have any impact on the outstanding eye appeal.

PCGS 175, NGC 112. The most recent NGC-graded example sold in the 2022 FUN auction for \$6,300. The current NGC Price Guide value is \$8,100 and the Collectors Universe value is listed at \$7,500. Another date that is EXTREMELY RARE any finer. Good luck.

PCGS# 7945 | EST: \$5,250+**LOT 166****\$2.50 1914 NGC MS65**

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

A very challenging date this fine, and EXTREMELY RARE any finer, the 1914 is a "silent" stopper for the series in GEM grade.

Warm orange-gold toning graces the frosty surfaces of this satiny smooth example. Well struck devices are deeply impressed and show crisp definition in the feather details. As you rotate the surfaces in a light the color sparkles. There are no serious marks of any kind, the minor ones that we do see require a strong glass to locate. The eye appeal is quite pleasing.

PCGS 66, NGC 52. The last two NGC-MS65 examples to sell in auction realized \$15,000 (August 2021 and February 2022). The current NGC Price Guide value is \$17,000 and the Collectors Universe value is \$25,000. NGC has graded just five finer in all the years of grading. Good luck.

LOT 167**\$2.50 1914-D NGC MS65**

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

The 14-D is a very RARE date in GEM, and virtually unobtainable any finer. Indeed, NGC has graded just three finer than the presently offered MS65.

Impressive quality surfaces display a brilliant, yellow gold luster that highlights the surfaces. All of the details are crisp and sharp, deeply rendered by the bold, exacting strikes from the dies. Overall, the surfaces are extremely clean and smooth; the dreaded right reverse field has only a few tiny contact ticks and is above average in cleanliness. The eye appeal is wonderful.

PCGS 56, NGC 46. The most recent NGC-graded example sold for \$15,000 in July 2022. The current NGC Price Guide value is listed at \$15,000 and the Collectors Universe value is listed at \$30,000. There are just three graded finer at NGC. This GEM is worthy of the FINEST of NGC Registry Sets. Good luck.

PCGS# 7947 | EST: \$12,000+**LOT 168****\$2.50 1915 NGC MS65+**

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

An ideal 1915 quarter eagle--GEM quality all the way! We really like the color. A bold luster radiates on both sides of this "+" graded GEM. Richly toned with orange-gold and rose accents, this lustrous 1915 has a great eye appeal. A tiny contact mark may be found with the aid of a strong glass, but nothing has an impact on the visual allure of this nice looking coin.

PCGS 197, NGC 195. The last MS65+ graded by NGC sold in March 2019, the market dynamic is much different today. More recently regular MS65s graded by NGC have sold in the \$4,560 to \$5,520 range. In MS65+ the NGC Price Guide value is listed at \$7,250 and the Collectors Universe value is listed at \$10,000. RARE finer, this coin would make a great addition to any \$2.50 set or type set of 20th century gold. Bid accordingly.

PCGS# 7948 | EST: \$4,500+

LOT 169**\$2.50 1925-D NGC MS65**

THE E.D.J. SET, FROM THE EUEL DURWOOD JONES COLLECTION

After a decade hiatus, finally in 1925, quarter eagles were produced for circulation, amounting to a mintage of 578,000. One of the more common dates in the series, even in GEM grade, the 25-D is a popular date for type set purposes. This is a lustrous and well struck specimen. Original mint luster glistens boldly highlighting a warm golden, tangerine-honey toning.

There is some minor contact noted, mostly just some tiny breaks in the frost, there are no serious ticks or marks of consequence to be found anywhere.

PCGS 722, NGC 1033. We believe there is some duplication of submissions at both grading services, between crossovers, upgrades, re-grades, etc. The most recent example to sell in auction brought \$1,560 in June 2022. The NGC Price Guide value is listed at \$2,000 and the Collectors Universe value is listed at \$2,750. Take a look at this GEM example and add it to your collection.

PCGS 867, NGC 621. The most recent example sold in November 2021 for \$1,920. The current Collectors Universe value is \$2,750 and the NGC Price Guide value is \$1,800. RARE finer, this is another wonderful example bound for your Registry Set.

This is a very attractive GEM example of this late date Indian Head quarter eagle. Its bold, gold coloration and vivacious luster highlights the deeply impressed incuse devices and satiny smooth surfaces. While a few tiny ticks can be found with the aid of a strong glass, they have little impact on the OUTSTANDING visual allure.

PCGS 575, NGC 441. RARE finer, thus we feel there is at least some duplication of submissions hoping for a 6 5+ or 66 grade. There were two examples that sold earlier in 2022, both realizing \$1,560. The current Collectors Universe value is listed at \$2,750. Truly challenging any finer, we expect strong bidding for this GEM.

PCGS 16, NGC 17. The last NGC-graded example sold back in December 2020, before the market took a sharp upturn. The current Collectors Universe value is listed at \$4,500 and the NGC Price Guide value is listed at \$2,350. Keep in mind that these are VERY RARE in MS66 or finer grades. Good luck.

\$2.50 1929 NGC MS65+

THE E.D.J. SET, FROM THE EUEL
DURWOOD JONES COLLECTION

Tied for second FINEST graded at NGC, and among the 15 HIGHEST graded at that firm! WOW! While the mintage was the highest recorded since 1925, this year saw the stock market crash and the end of the series. It is quite probable that many 1929 quarter eagles were melted after FDR recalled privately held gold coins. NGC has graded just a half dozen finer.

Sensationally brilliant luster highlights wonderfully preserved surfaces and bright yellow-gold coloration. Sharply impressed devices contrast against the generally smooth fields. Some light lines and ticks account for the assigned grade, but have minimal impact on the eye appeal.

PCGS 15, NGC 9. There has not been an NGC-graded MS65+ sold since December 2018. More recently non-“+” NGC MS65s have sold in the \$4,248 to \$5,349 range. The current NGC Price Guide value is listed at \$6,750 and the Collectors Universe value is listed at \$9,000. NGC has graded six in MS66 finer. The most recent one of those brought \$20,700 over a decade ago! Bound for a great set!

NOTES

LOT 174**\$2.50 1914-D PCGS MS64+ CAC**

This is an exceptional coin! Overall, the surfaces are frosty, clean and smooth. The dreaded right reverse field has only a few tiny contact ticks and is way above average in cleanliness. A thick luster shows off the totally original golden-wheat color. There are NO spots or discolorations. All of the details are frosty and have crisp sharp strikes. The eye appeal is excellent!

PCGS 921, NGC 1054, CAC 167.

There are 106 graded in MS64+ and we suspect that there is much duplication in an effort to "make" an MS65. The current PCGS Price Guide value is listed at \$8,000 and the most recent example sold for \$4,920. Note that a PCGS/CAC example will sell between \$35,000 and \$40,000 in auction. Do not let this important opportunity pass you by!

A fully Prooflike GEM that is worthy of all its bells and whistles! Flashy, reflective mirrored fields gleam boldly in radiating with a sensational blinding brilliance. Rich golden color is truly a delight to behold and the surfaces are very clean. The devices are well struck and have a nice frost creating a near-Cameo like look. A perfect example for a type set.

PCGS 237, NGC 144, CAC 50. There are 10 in MS65+ at NGC but this is the ONLY one that has the "*" designation for outstanding eye appeal. Last selling for \$7,638 back in April 2015. More recently we sold a PCGS MS65+ CAC in our May 2022 sale of the Oak Collection, which realized \$16,450 and we like the look of this NGC-graded piece better. The NGC Price Guide value is listed at \$13,250 and the Collectors Universe value is listed at \$17,500. We anticipate very strong bidding for this one. Good luck.

LOT 176**\$5 1803/2 PCGS MS62 CAC**

A lovely BD-4. Every 1803-dated half eagle was struck from a previously engraved 1802 die that was then punched with a 3 creating the popular overdate. The BD-4 features a "perfect T" in LIBERTY. The present example was struck from the later state of the dies with a number of advanced die cracks seen on both sides. A total of 33,506 were reported struck in 1803, and John Dannreuther estimates that of that number, about 6,000-9,000 were from this die pair, of which, 125-175 survive today.

This is a truly CHOICE example. A boldly lustrous example that has a warm, honey-yellow, orange tinged golden color. Sharply struck up, the devices are bold, including the underlying 2. Some subtle traces of contact account for the assigned grade, but the overall eye appeal and quality is very high end in comparison to what is typically seen for the MS62 level.

PCGS 61, NGC 43, CAC 17. The most recent example to sell realized \$24,000 in May 2022 and prior to that, the last one sold in May 2016. The PCGS Price Guide value is \$25,000 and the CAC CPG value is \$27,600. A very pleasing example that should see very strong bidding when it crosses the block. Good luck.

PCGS# 8084 | EST: \$22,000+

LOT 177**\$5 1811 SMALL 5 PCGS AU58 CAC**

A very high end and attractive AU58 early five, a coin that is SUPERB for the grade--a real GEM. All Small 5 1811 half eagles are from the BD-2 die pair, a Rarity-3 variety that makes up a distinct Red Book variety.

Sharply struck devices stand out with fully defined details. A strong luster radiates boldly on the lightly worn surfaces. There are no serious marks of any kind and just a hint of friction keeps this high end example from a Mint State grade. This is a great example for type or date purposes with a way above average visual allure than you will normally see for the assigned grade.

PCGS 33, NGC 5, CAC 8. The only CAC-approved example to sell in auction brought \$14,100 in April 2022, an NGC-graded example. The current PCGS Price Guide value is listed at \$15,000. A great coin worthy of a fantastic type set or collection of early fives. This is a lovely coin that will see very strong bidding from collectors. Good luck.

PCGS# 8109 | EST: \$13,000+

NOTES

LOT 178**\$5 1818 PCGS AU50 CAC**

This is a truly RARE coin! While 48,588 were reported struck in 1818, using three different die pairs, each of which makes up a distinct variety. The presently offered example, struck from BD-1, or the "normal" reverse, is a Rarity-5 die pairing with John Dannreuther estimating 50-65 known in all grades. The present lightly worn example was struck from BD Die State b, with the reverse cracked, and the obverse remaining in a "perfect" state.

This coin is a pleasing, acceptable AU50. It has some light ORIGINAL toning scattered over the surprisingly mark free surfaces-yet it is not a dirty coin. A few light lines are visible with a strong glass. Miss Liberty and the details are also very well struck. The wear is light and even. The eye appeal is pretty neat!

PCGS 3, NGC 2, CAC 1. This is the only one to have sold, realizing nearly \$16,000 nearly a decade ago. The current PCGS Price Guide value is listed at \$18,000 and the CAC CPG value is listed at \$19,600. A very popular "Fat Head Five" that will certainly fit the budget of most collectors and will fit nicely in any gold type set. Good luck.

LOT 179

\$5 1831 BD-2 LARGE 5D. PCGS MS65+ CAC

A STUNNING GEM 1831 half eagle, the SOLE FINEST graded with the Large 5D on the reverse, and second FINEST KNOWN of all varieties, bested by the MS67 Seavey-Parmelee-Smith-Jenks-Clapp-Eliasberg-Pogue Small 5D. It is one of just three of the entire type to be approved by CAC at the MS65 or MS65+ grade level with just two finer that have received beans.

The 1831 half eagle is incredibly RARE in all grades! The reported mintage for the date was 140,594 and two pairs of dies were used to produce them; pairing the same obverse with two distinct reverses: BD-1 has the a small D in the denomination 5D and BD-2, as here has a large D in the denomination. While the mintage was generous, these old tenor gold coins were worth more as gold bullion than as a circulating gold coin. Thus the vast majority were exported overseas, melted, and reimported as bullion; this circular trade reaped profits for speculators, but created many numismatic rarities. In all, John Dannreuther estimates 36-48 of all 1831 \$5 gold pieces survive to the present time; 22-30 being of the BD-2 variety as offered here.

An exquisite GEM of the first order! Boldly reflective, nearly fully Prooflike mint brilliance glows and captivates the viewer's gaze. The luster is blinding and highlights the vivid golden surfaces with swirling cartwheels that sweep across the generally smooth, clean surfaces when rotated in a light; head on, the reflective flash overpowers the more satiny brilliance. The strike was exacting, with the details crisply impressed from the dies. The fields are virtually flawless, and the only marks that are seen are limited to the edge, and only one of which is visible while the coin is encapsulated in the PCGS holder, a small, curved indent at 6:00. The visual allure is truly MAGNIFICENT and is one of the most exciting early gold pieces we have had the honor of offering.

PCGS 1, NGC 0, CAC 1. This coin's most recent appearance was in a notably weak point in the market, realizing \$235,000 in May 2016. Since then, a PCGS MS64 CAC sold in August 2020 for \$216,000. The current PCGS Price Guide value in MS65+ is listed at \$350,000. Early gold is always popular, especially in the HIGHEST of grades. This is an EXTREMELY RARE coin that will see very strong bidding when it crosses the block. Whether you are putting together the finest of type, date, or variety collections of early gold, or just want to put away world class, one of a kind, top pop sexy pieces, this coin will fit the bill. Do not let it get away!

LOT 180**\$5 1847-D PCGS MS62**

Legend Rare Coin Auctions is honored to offer this Brilliant Uncirculated, lovely Mint State 1847-D half eagle that has distinct claims to the CHOICE classification, and ranks among the second HIGHEST graded at PCGS. With a mintage of 64,405, it is a relatively common date in circulated grades, and is even available in the lower AU grades. However, not only is this date EXTREMELY RARE in this lofty state of preservation, it is VERY RARELY offered! Indeed, the highest PCGS-graded 1847-D \$5s offered in the last decade were two in AU58.

Ultra flashy, semi-Prooflike brilliant luster radiates boldly on both sides. Rich rose and tangerine hued golden surfaces are truly a delight to behold. Sharply impressed devices stand out boldly against the field brilliance. The surfaces are generally clean, free of seriously distracting contact on either side. The eye appeal is truly intriguing and is sure to delight the advanced southern branch mint collector.

PCGS 7, NGC 3. The most recent PCGS MS62 to sell was way back in 2008--that record may as well be from 1908. The most recent Mint State graded coin to sell in auction was an NGC MS63 that brought \$31,200 in the recent ANA auction. In MS62, the PCGS Price Guide value is listed at \$22,50. Bid accordingly!

LOT 181

\$5 1910 NGC MS66

FROM THE EUEL DURWOOD JONES COLLECTION

Tied for FINEST graded 1910 half eagle graded at either service. In fact, NGC has graded only three this high and PCGS has graded nothing finer than an MS65+. NGC has never graded anything finer, and as such, this is a prime candidate for anyone demanding the highest graded examples for their Registry Sets. As a TYPE, the Indian Head \$5 is VERY RARE in this high a grade, just 18 have been graded MS66 at NGC across the entire series, with just two 1910-Ds graded MS67 finer.

A razor sharp strike imparted full, crisp definition to all the feather details on both sides. A warm honey-gold hue overall melds with tangerine and wheat gold accents. A bold radiant luster glows vibrantly on both sides, enhancing a bold, visual allure. The surfaces are quite clean, with only the most minor trace of trivial wispy lines in the dreaded right reverse field. Otherwise the surfaces are sensational. The eye appeal is great!

PCGS 0, NGC 3. The most recent example sold in July 2009! That was forever ago! Collectors Universe does not list a value in this high a grade, but NGC estimates the value at \$37,500. We expect very strong bidding when this GEM crosses the block. Good luck.

PCGS# 8517 | EST: \$25,000+

LOT 182**\$10 1891-CC PCGS AU58 CAC**

On the cusp of a full Mint State grade, this is an ideal example to represent the Carson City mint in a gold type set. Essentially complete mint luster gleams over sharply struck devices. Tiny ticks and marks are noted, appropriate for the assigned grade, and have no impact on the naked eye allure of this bright golden 91-CC ten.

PCGS 514, NGC 584, CAC 58. An example sold in August 2021 for \$4,320. The current PCGS Price Guide value is listed at \$3,750. We very much like the look of this "GE" AU and expect it to bring a very strong bid when it crosses the block. Good luck!

PCGS# 8720 | EST: \$3,500+

LOT 183**\$10 1897 PCGS MS65+ CAC**

A very glamorous coin! We agree this coin is also VERY high end!

Only a few very light and trivial frost breaks/ticks keep this coin from full MS66 status. Overall, the surfaces are super clean and super satiny smooth. A strong luster enhances a very neat display of original greenish gold that frames the rims and opens into deeper light orange gold. There are NO stains or discolorations. Miss Liberty and the details are fully struck and have light frost. The eye appeal is beautiful!

PCGS 19, NGC 20, CAC 5. There are just 2 graded MS65+ at PCGS with just four in MS66 finer. This was the most recent example sold for \$13,513 in our July 2022 Regency Auction. This is the FINEST CAC-approved example worthy of the FINEST collection. Good luck.

PCGS# 8737 | EST: \$12,000+

LOT 184**\$10 1900-S PCGS MS61 CAC**

While the 1901-S \$10 had a large mintage and is very common in all grades including in GEM, only 81,000 1900-S tens were struck and they are considerably scarce in all grades. This example is totally original with a rich, orange-gold patina that graces both sides. Semi-Prooflike reflective brilliance graces the fields on both sides and the details are sharply struck up. Housed in an old green tag holder.

PCGS 28, NGC 29, CAC 5. The current PCGS Price Guide value is listed at \$2,500 and its been over six years since a PCGS/CAC example has sold in auction. More recently a non-CAC, NGC-graded coin brought \$2,160 in January 2022. Only 10 examples have been approved by CAC finer. Good luck.

**LOT 185****\$10 1901 NGC MS65**

A frosty lustrous GEM with bold satiny brilliance and glowing original surfaces. Fully defined devices are a stand out and the eye appeal is excellent.

PCGS 910, NGC 1497. The current Collectors Universe value is listed at \$4,000 and the most recent example sold in February 2022 for \$2,796. Scarce finer, this is a great looking coin for a type set or set of \$10 Libs.

LOT 186**\$10 1901-S NGC MS65**

A wonderful GEM example of an 01-S ten! Magnificent cartwheel luster radiates boldly across the rich golden coloration and satiny smooth surfaces and sharply struck devices. The eye appeal is exceptional and we don't know why CAC did not bean this GEM.

PCGS 1298, NGC 1320. The most recent examples realized \$2,640 and \$2,880 in February and April 2022 respectively. The current Collectors Universe value is \$4,000. While a "common" date, there is nothing common about this one's great look. Bid accordingly.

PCGS# 8749 | EST: \$2,200+

LOT 187**\$10 1907 NO MOTTO PCGS MS64+****CAC**

FROM THE EUEL DURWOOD JONES COLLECTION

A glorious PQ example for the grade and we have no doubt, in the old days, this brilliantly lustrous coin would have been called a GEM. An intensely vivid luster blooms all over, highlighting the bright golden surfaces. The fields are satiny and smooth, devoid of any serious marks of any kind. The devices are crisply defined, boldly rendered by an exacting blow from the dies. The eye appeal is wonderful for the issue and grade, and we consider it very high end.

Often designated as the No Motto type, the correct designation should also include No Periods, as the periods surrounding the legend E PLURIBUS UNUM on the earlier Wire Rim and Rounded Rim types were removed and the relief modified. This is the first "affordable" \$10 Indian, as the Wire and Rolled Rim types are major rarities.

PCGS 1054, NGC 832, CAC 157. PCGS has graded only 64 in MS64+ and it is considered scarce in MS65. The most recent example to sell in auction realized \$7,800 in February 2022 and in April 2022 an NGC MS64 CAC sold for \$9,000. The current Collectors Universe value is listed at \$8,000 and we would not be surprised if this beauty brought that or more. Bound for a wonderful collection of 20th century gold pieces.

PCGS# 8852 | EST: \$6,500+

LOT 188**\$10 1911 PCGS MS65+ CAC**

A very HIGH END and incredibly lustrous GEM example with strong claims to a higher grade.

A thick, satiny mint frost glows boldly on both sides. A swirling cartwheel brilliance rolls smoothly across smooth surfaces. Totally original and not messed with, this brilliance picks up varied golden shades when rotated in a light ranging from bright yellow gold to a deeper rose-tangerine hue. The surfaces are clean and free of any serious contact marks, and the quality holds up even under intense magnification. The eye appeal matches the technical quality--that is to say it is AMAZING.

PCGS 163, NGC 159, CAC 55. There are 11 graded MS65+ at PCGS according to the Population Report, and about fifty finer. We sold the most recent PCGS MS65+ CAC example in our May 2021 Regency Auction, where it realized \$12,338. The current PCGS Price Guide value is \$12,500, no doubt a reflection of that auction record, but we should note that a PCGS MS65 CAC sold in our most recent September 2022 Regency Auction for \$10,869. We expect this coin will bring a very strong bid as well.

PCGS# 8868 | EST: \$10,000+**LOT 189****\$10 1926 PCGS MS65+**

This lovely MS65+ is freshly graded and fresh to the market, having come from a small old time holding that was recently submitted for grading for the first time.

Emberlike glowing luster radiates on the GEM quality surfaces. The devices show full crisp strikes and the fields are smooth and lustrous. Under careful inspection with a powerful loupe you will find a tiny tick or two, but none are distracting from the stunning visual allure of this GEM.

PCGS 43, NGC 9. The most recent example sold in November 2021 for \$4,838 and the current PCGS Price Guide value is listed at \$6,500. RARE finer, this lovely coin will fit nicely in your type or date set. Good luck.

LOT 190**\$10 1926 PCGS MS66**

This is a very high end, ultra fresh and totally ORIGINAL Premium GEM \$10 Indian. This beautiful MS66 was freshly graded, submitted by our consignor "raw" from an old time holding and is tied for second highest graded at PCGS. We are honored to have been selected to sell it.

The presently offered GEM has a bold, thickly frosty mint brilliance that shows off the wonderful medium gold coloration. The surfaces are very nice, superior to so many we see. A close inspection with a powerful glass reveals a few trivial marks, but none of these are in the focal areas and are easily overlooked in light of the SUPERB eye appeal. It should be noted that this date is EXTREMELY RARE any finer.

PCGS 37, NGC 51. The most recent example sold in April 2022 for \$9,600 and this example lacks the spots that that coin did. The current PCGS Price Guide value is \$17,500 and we would not be surprised if this coin brought close to that amount. Bound for a wonderful set of \$10 Indians. Good luck.

**LOT 191****\$10 1932 NGC MS64**

A very frosty and satiny near-Gem that offers strong details and attractive two-tone orange gold coloration that accents the sharply struck devices. Although a common date, the present example is very high end for the grade, and is a great example of the final collectible date in this very popular series.

PCGS 13262, NGC 17565. The most recent examples sold in August 2022, with APRs ranging from \$1,560 to \$2,040. The current Collectors Universe value is \$2,750. Housed in a previous generation NGC holder, this VERY CHOICE example is fresh to the market.

**NOTES**

LOT 194

\$20 1854 LARGE DATE PCGS AU58 CAC

Ex S.S. Central America.

The 1854 Large Date is many times rarer than the Small Date variety. Doug Winter noted that the Large Date utilized the same date logotype as seen on the 1854 silver dollars and some New Orleans eagles struck. He opined that fewer than 10% of the entire mintage of 1854 double eagles were struck using this date type. Usually located in lower grade, this brilliantly lustrous, borderline Mint State example ranks among the best known (PCGS has graded just 10 finer).

An intense mint brilliance swirls boldly on both sides; indeed this coin, at first, second, and even third glance looks Mint State. Sharply impressed, this coin has a few minor ticks and marks that were acquired during its brief stay in commerce before sinking to the bottom of the Atlantic Ocean when a hurricane caused the sinking of the sidewheel steamship S.S. Central America in September 1857. The fabled Ship of Gold was carrying a large cargo of gold bars and coins en route to New York to help prop up a damaged financial system caused by over speculation in railroads and other investments. The sinking of millions of dollars worth of gold caused many bank closures and a severe economic panic. Expeditions in the late 1980s located the wreck and after years of legal battles the first portion of the treasure was first offered for sale in 2000.

Ex S.S. Central America recovery #1, and housed in the special gold foil holder; unknown intermediaries; Pueblo Collection, Stack's Bowers, August 2012, lot 11753.

PCGS 17, NGC 24, CAC 10. This remarkable coin realized \$28,200 in its last appearance in the 2012 ANA auction. The current CAC CPG value is \$23,000 and the PCGS Price Guide value is listed at \$25,000. Since this coin sold, a few examples were discovered in the extensive Fairmont holdings, but it remains a very RARE date any finer, with just 10 listed higher on the PCGS Population Report. Good luck.

PCGS# 98911 | EST: \$23,000+

LOT 195**\$20 1855-S PCGS AU58 CAC**

A pleasing "GEM" AU example of this early S-mint \$20. The second year of coinage saw only 879,675 double eagles struck. The present example is barely worn. The friction is seen only on the highest points of the design types and in the fields. There is a wealth of original mint luster that boldly blooms all over and displays some hints of reflective flash in the fields. The sharply struck up devices stand out and there are just a few widely scattered ticks and minor marks. The eye appeal is VERY HIGH END.

PCGS 213, NGC 182, CAC 53. It has been two years since the last PCGS AU58 CA example has sold in auction, the most recent brought \$4,560 in October 2020 and one brought \$5,040 in June 2020. The current CAC CPG value is \$6,600 and the PCGS Price Guide value is \$6,000. Worthy of a strong bid, and placement in a great set of double eagles. Quite scarce in Mint State.

PCGS# 8916 | EST: \$5,000+

LOT 196**\$20 1856 PCGS AU58 CAC**

A lovely and totally original example of this Type 1 double eagle. This is the second rarest Philly mint \$20 from the 1850s behind the 1859, and perhaps only 50 or examples exist in all Mint State (three of these came off the wreck of the SS Republic).

Very choice and original surfaces show a warm golden patina and a pleasing "crusty" look, evidence that this coin has not been conserved in any way. The barest trace of friction accounts for the assigned grade. The overall strike is bold and the surfaces are free from distracting marks of any consequence. The eye appeal is pleasing.

PCGS 38, NGC 72, CAC 23. The most recent example sold in May 2022 for \$6,300. The current PCGS Price Guide value is listed at \$6,000 and the CAC CPG value is listed at \$6,750. These are low five figure coins in the lowest of Mint State grades, and this pleasing AU58 is very choice for the grade. Take a good look and bid accordingly.

LOT 197**\$20 1857-S BOLD S PCGS MS61**

FROM THE EUEL DURWOOD JONES COLLECTION
Ex S.S. Central America #2.

A lustrous Brilliant Uncirculated example of this popular Shipwreck date double eagle. Housed in the larger holder featuring a pinch of gold from the recovery of the S.S. Central America, this coin sat at the bottom of the Atlantic off the coast of the Carolinas. The details are crisply rendered and there is no wear anywhere on the surfaces. Some minor, scattered marks and microscopic wispy lines account for the assigned grade. This one has great look for the assigned grade.

PCGS has graded just 26 of the Bold S variety in MS61 from the second recovery and only one has ever sold in auction, realizing \$6,000 over three years ago. The current PCGS Price Guide value is listed at \$7,250. Worthy of a strong bid.

PCGS# 670715 | EST: \$6,000+

LOT 198**\$20 1861-O PCGS XF45**

A very important and historic Type One \$20, the 1861-O was struck under the authority of three governing authorities: the U.S., State of Louisiana, and the Confederacy. From January 1-26, 1861 the Federal government struck 5,000; after Louisiana seceded from the union, but before joining the Confederacy, 9,750 were struck between January 26 to March 31; the final 2,991 pieces were struck by the Confederate government between April 1 to April 30, 1861, before the mint was shut down. All told, 17,741 double eagles were struck for circulation during this turbulent year in our nation's history. Most known examples grade VF to XF, and all told, about 150-175 examples are known today in all states of preservation.

This is a very well struck example, with the full date crisp and complete, likely an earlier striking. A wealth of remaining luster clings to the surfaces glowing from under a rich orange-gold patina. Perhaps wiped ages ago, there are some unobtrusive microscopic lines visible under the aid of a glass. The eye appeal is very pleasing overall, and this is the last of the New Orleans mint \$20s until 1879.

PCGS 28, NGC 21. The Collectors Universe value is listed at \$55,000. This is an important coin for the collector of double eagles and a great opportunity to pick up a nice example. If you collect Civil War dates, rare gold, or just looking for neat historic rarities, this is the coin for you.

PCGS# 8934 | EST: \$50,000+

LOT 199**\$20 1867-S PCGS AU58 CAC**

A wonderful, crusty, original example. Warm golden tone under a olive-tan patina glows on minimally worn surfaces. Indeed there is barely perceptible wear, and the AU58 grade is likely from the contact marks that are very common to this Type II date. VERY RARE in any Mint State grade, this is a very pleasing, unconserved piece, likely from some old overseas holding.

PCGS 81, NGC 192, CAC 34. The most recent PCGS/CAC example

was a similar looking coin from the June 2020 segment of the Fairmont Collection, which brought \$6,300. The current Collectors Universe value is listed at \$7,000. A very challenging date in Mint State, we expect strong bidding for this very pleasing, high end AU58.

PCGS# 8952 | EST: \$6,000+

**LOT 200****\$20 1876-CC PCGS AU53 CAC**

This is a totally original example. Carson City gold always holds a special allure and this lightly circulated example struck during the centennial year has a sensational look for the assigned grade. Warm orange gold patina graces minimally abraded surfaces.

PCGS 237, NGC 255, CAC 26.

While the most recent example sold over a year ago for \$4,560, we sold a non-CAC PCGS AU50 in May 2022 for \$4,465. The current CAC CPG value is \$6,900 and the PCGS Price Guide value is \$5,750, and we have no doubt this coin will sell in that range. Good luck.

LOT 201**\$20 1889-S PCGS MS64 CAC**

FROM THE EUEL DURWOOD JONES COLLECTION

Ex Saddle Ridge Hoard, as noted on the gold label. The Saddle Ridge Hoard made international headlines in 2013 when a northern California couple discovered several tin cans filled with a total of 1,427 gold coins, made up mostly of double eagles, including 422 examples of 1889-S thus about 30% of the hoard was made up of this previously conditionally challenging date.

This is a truly stunning example! A blazing golden luster beckons your eye from across the room, mesmerizing and enticing the viewer's gaze. It is amazing to ponder the buried treasure origin story behind this coin, and that it could have survived over 100 years buried on a plot of land in rural northern California. The surfaces are pristine for the assigned grade and the devices are crisply rendered from an exacting blow from the dies. The eye appeal is stunning.

PCGS 100, NGC 37, CAC 20. We can find only a single MS64 example from the Saddle Ridge Hoard selling in auction, a non-CAC coin that we sold in December 2019 for \$7,638. A PCGS MS64 CAC from the extensive Fairmont Collection sold in April 2022 for \$10,200. The current CAC CPG value is listed at \$11,200. There are 25 examples graded higher at PCGS, no doubt most of those are from the same source as this superb example. Do not let this opportunity pass you by!

PCGS# 109012 | EST: \$9,000+**LOT 202****\$20 1890-CC NGC AU55 CAC**

With a mintage of 91,209, the 1890-CC \$20 is one of the more common Carson City Double eagles, but it is also a very popular date to represent the mint in a mintmark set. This is a totally original CHOICE AU example. The definition of the details is quite bold with only the lightest hint of friction on the high points. A blush of rich wheat and honey gold is brought out by a bold satiny underlying luster. The eye appeal is great for the assigned grade.

PCGS 337, NGC 467, CAC 68. There has not been a CAC-approved example to sell in auction in over two years. The most recent NGC-graded AU55 sold in August 2022 for \$6,300 and was not CAC. The current Collectors Universe value is listed at \$7,000 and the CAC CPG value is \$7,800. We expect that this very pleasing example will bring in that range. Good luck.

PCGS# 9014 | EST: \$6,000+**LOT 203****\$20 1893-S PCGS MS63 CAC**

The 1893-S double eagle is a well known condition rarity at the MS63+ level and finer, making this CAC approved MS63 a fantastic choice for a picky, budget minded collector. A brilliant orange gold luster swirls and glows boldly on both sides accenting sharply struck, frosted devices. The flashy brilliance is exceptional and very clean for the assigned grade.

PCGS 1017, NGC 362, CAC 32. There has not been a PCGS/CAC example sold since February 2018. The most recent non-CAC PCGS graded MS63 realized \$4,100 in March 2022.

The current Collectors Universe value is \$5,000 and the CAC CPG value is \$4,500. We anticipate this high end example will bring in that range. Good luck!

LOT 204

\$3 1864 PCGS MS66

FROM THE EUEL DURWOOD JONES COLLECTION

Legend Rare Coin Auctions is honored to offer this exceptional GEM 1893-S double eagle. This is arguably the FINEST KNOWN 1893-S double eagle that exists! This majestic GEM survivor has not been sold in auction since it appeared in the Sotheby's/Stack's sale of the Dallas Bank Collection in October 2001. This marvelous coin is also the plate coin for the date in David Akers' monumental reference on United States Gold Coins, which, while published decades ago, still serves as one of the standard references for U.S. gold coins.

The "Dallas Bank Collection" was formed by H. Jeff Browning, who died in 1978 at the age of 45. From the time of his death, until 2001, his collection remained locked away in a Dallas, Texas bank vault. Most of the numismatic community knew little of the collection, save for references to it in David Akers' works on U.S. Gold Coinage. It was a fateful trip to Dallas in 1981 to visit with Harry W. Bass Jr. that Akers saw the collection and was able to take a look at the Browning Collection and take photographs that were used in his works. The monumental collection was an extensive set of U.S. Gold Coins from the first issues of 1795 to the end of regular issue U.S. gold in the early 1930s, including a nearly complete set of double eagles. Sotheby's and Stack's partnered to offer the collection, which featured the gold dollars, quarter eagles, three and four dollar gold pieces, eagles and double eagles (the half eagles had been sold previously, en bloc privately). The Browning Collection is one of those fabled collections, though it is often overshadowed by the Eliasberg and Bass Collections.

Of the date, the 1893-S is not a rarity, nearly one million examples were struck; David Akers said it was "moderately scarce" and compared it to the 1879-S, 1882-S, 1885-S, 1888-S, 1892-S, 1901-S and 1905-S dates. A good number of lower grade uncirculated examples are known based on the PCGS and NGC Population and Census data; today, over 11,600 have been graded (no doubt with some duplicate and triplicate submissions over the years) in the MS60 to MS63 grades. The date becomes very challenging in MS63+ and MS64, and in GEM, as here, the date is EXCESSIVELY RARE.

Somewhat tersely described back in the Dallas Bank

Collection sale as: "CHOICE BRILLIANT UNCIRCULATED, near Gem quality. The AKERS' PLATE COIN. Unquestionably one of the finest known. This coin exhibits full mint bloom with rich coppery toning around the protected areas on both sides. In discussing the issue, Akers described this coin: 'I have seen a few really superb examples of this date, the finest being the nearly perfect coin shown above that is in a prominent Dallas bank collection."

There really is not much to add twenty-one years later, though we will mention that while some double eagle issues have seen their Gem-grade populations grow as old holdings that were still buried deep within European and Latin American bank vaults made their way back stateside, no new GEM 1893-S double eagles have been discovered. This is an important opportunity for the advanced double eagle collector to add the FINEST known example to their collection.

Ex. H. Jeff Browning Collection (sometime prior to 1978); held in trust in a Dallas, Texas bank (1978-2001); Sotheby's & Stack's October 2001 sale of the Dallas Bank Collection, lot 119; unknown intermediaries; Euel Durwood Jones Collection. This coin serves as the David Akers Plate Coin

The other MS65 graded by PCGS sold in Heritage's October 2012 (lot 6286), and the cataloger had this to say: "An unprecedented opportunity as a review of our past auctions fails to turn up a previous offering in MS65, and we are unable to find any auctions at this grade level among our competitors. Here is an incredible condition rarity for the connoisseur, and once this coin sells, another chance may not occur for many years, if ever. The only comparable coin is the Akers plate coin that was part of the Dallas Bank Collection sold in October 2001..."

PCGS 2, NGC 0, CAC 1. The other PCGS MS65 (cited above) sold a decade ago, selling for \$44,063 (not CAC). Our consignor purchased this coin privately around that same time. The current published levels, based on that decade old auction record will easily be surpassed when this impressive GEM crosses the block. We anticipate a very strong bid will be needed to take this one home. Good luck.

**LOT 205****\$20 1897-S PCGS MS63 CAC**

This is a very high end and PQ double eagle in MS63. Honestly we would not flinch if it was graded higher (no guarantees). Sharply struck satiny smooth, and boldly lustrous with a great look, this is a very CHOICE example.

PCGS 3000, NGC 2540, CAC 125. The most recent example sold for \$3,120 in July 2022 and the current PCGS Price Guide value is \$3,200. A RARE date in GEM and scarce in MS64, this CAC approved MS63 is a great coin for the collector.

PCGS# 9032 | EST: \$2,800+**LOT 206****\$20 1903 PCGS MS64+ CAC**

This is a HIGH END coin. Very pleasing surfaces have a bare minimum of frost break and small marks. A strong luster shows off the totally original colors all over. An even shade of original gold is spread all over. No putty or dirt on this piece! Miss Liberty and the details are frosty and are well struck. The eye appeal is excellent! Remember it is not a commoner 1904 which comes way nicer.

PCGS 3694, NGC 3379, CAC 406. The most recent PCGS/CAC MS64 sold for \$2,880 in April 2022. Clearly the current PCGS Price Guide and CAC CPG values are too low, listed at \$2,750. Bid accordingly.

PCGS# 9043 | EST: \$2,500+**LOT 207****\$20 1907 LIBERTY PCGS MS64 CAC**

Frosty, satiny golden luster accents a thick, creamy textured surface. The surfaces are generally clean and near-GEM quality and the devices are well struck. This is an eye appealing example of the final Liberty double eagle issue.

PCGS 1531, NGC 1006, CAC 117. The most recent example sold for \$3,068 in July 2022 and prior to that, one sold for \$7,500 in May 2022. The current PCGS Price Guide value is listed at \$4,000. Quite scarce finer, this lovely example is worthy of a strong bid and placement in any gold coin collection: type, date, or complete set.

PCGS# 9052 | EST: \$3,000+**LOT 208****\$20 1908 NO MOTTO PCGS MS64 CAC**

A boldly lustrous and very pleasing unmolested near-GEM example of this early Saint. Well struck with a delightful old gold coloration and a glowing mint brilliance.

PCGS 61642, NGC 47428, CAC 1615. The CAC CPG value is \$2,650 and the current PCGS Price Guide value is \$2,900. The most recent sold for \$3,000 in June 2022. A pleasing type coin for sure, we expect it will see competitive bidding when it crosses the block.

PCGS# 9142 | EST: \$2,200+

**LOT 209****\$20 1910-D PCGS MS64 CAC**

An intense luster shows off a heart pounding, wholly original, deeper orange gold color. Miss Liberty and the details are frosty and have extra sharp strikes. The eye appeal is superb for the assigned grade.

PCGS 2723, NGC 1790, CAC 167. The last PCGS/CAC example sold back in March 2021--the market for PCGS/CAC 20th century gold is stronger today than it was back then. Today the PCGS Price Guide value is listed at \$3,750 and the CAC CPG value is \$3,900. A somewhat challenging coin in MS65 CAC, this highly original 1910-D double eagle is worthy of a great set.

PCGS# 9155 | EST: \$2,600+

**LOT 210****\$20 1911 PCGS MS64**

Ex Lifetime Achievement, as noted on the insert.

A wonderfully original, very CHOICE example of this conditionally challenging date. Indeed, with GEM examples selling in the \$25,000+ range, MS64 and MS64+ are about as high a grade as most collectors can hope to afford. This example was clearly cared for since it left the mint in 1911, where it acquired only minor contact marks. The strike is crisp, the luster is brilliant, and overall this example has a fantastic look for the grade. We think CAC was a little harsh with this one.

PCGS 608, NGC 411. Recent examples have sold in the \$3,600 to \$9,000 range, with the Collectors Universe value listed about mid-way between the two extremes at \$6,000. Worthy of a strong bid.

PCGS# 9157 | EST: \$4,000+

**LOT 211****\$20 1911-D/D RPM FS-501 PCGS MS66 CAC**

There are few major varieties in the Saint Gaudens double eagle series, most are minor doubled and tripled dies, and there is only a single major overdate. The 1911-D/D is a popular "naked eye" variety, one that is listed in the Cherry Picker guide. This is a charming variety, that while not rare in an absolute sense, it likely makes up a decent proportion of the issue.

The present PQ GEM is a medium honey-gold with peach, apricot, and tangerine accents. The strike is bold, highlighted by a frosted, satiny mint bloom. The repunched D is dramatic and can be seen without the aid of a glass. The eye appeal is striking.

PCGS 695, NGC 581, CAC 127. PCGS has graded 59 1911-D/D double eagles in MS66; NGC 58 . The most recent PCGS/CAC example to sell brought \$13,200 in the 2022 ANA auction and the current PCGS Price Guide value is listed at \$15,000. PCGS has graded a dozen examples higher, the finest being an MS67 in the Bob Simpson Collection. If you are looking for a PQ GEM 1911-D for your set, why not add this one that has quite a bit of character!

PCGS# 145010 | EST: \$10,000+

LOT 212**\$20 1914-D PCGS MS66**

Ex Duckor/Akers, as noted on the insert.

Some names are just associated with the best coins, and this GEM boasts two such names: David Akers and Dr. Steven Duckor.

The 1914-D is not a rare date per se, but is challenging in MS66 and incredibly RARE any finer. The Duckor/Akers example is notable for the combination of its high certified grade, and wonderfully patinated surfaces. Shades of deeper orange toning shows off as crimson, tangerine, cherry, and pale violet depending on the angle the light hits the highly lustrous fields. A few scattered ticks and marks in the fields, mostly invisible to the naked eye, and require magnification to find, are noted for the sake of full disclosure. The devices are sharply impressed with even the finest of details rendered. The visual allure is hypnotic and unique for sure, a delightful coin that combines quality, eye appeal, and pedigree.

PCGS 86, NGC 57. There's a wide range of APRs in recent times from \$7,500 to \$13,200 for non-CAC PCGS MS66s. Back in the 2012 FUN auction, this coin realized \$9,775. The current PCGS Price Guide value is listed at \$15,000. EXTREMELY RARE any finer, there are just 9 finer at PCGS. This Premium GEM will certainly captivate the collector and will see strong bidding. Good luck.

PCGS# 9165 | EST: \$10,000+**LOT 213****\$20 1923-D PCGS MS66**

A bold and impressive GEM 23-D Saint. Blazing lustrous surfaces glow all over with deep, orange and gold two tone coloration. Sharply struck devices stand out against the Premium GEM surfaces. While generally lumped in with generic dates like the 1924 that has over 15,000 graded in MS66 between PCGS and NGC, the 23-D has about 2,600.

PCGS 1770, NGC 872. Recent APRs range from \$3,960 to \$5,640 and the current PCGS Price Guide value is \$6,500. A great piece to add to any gold holding, gold bugs will be out in force on this lovely GEM.

PCGS# 9176 | EST: \$4,000+**LOT 214****\$20 1923-D PCGS MS66+ CAC**

WOW! This coin is oh so close to MS67! This is what a GEM Saint should look like! The rolling cartwheel luster accentuates a medium golden color with deeper orange and iridescent overtones. The surfaces are smooth and clean; free of any distracting marks, lines, or haze. The devices are completely struck up, offering bold definition. The eye appeal is remarkable.

PCGS 1950, NGC 954, CAC 292. PCGS has graded 179 in MS66+ and we have no doubt that that figure includes a substantial number of duplicates. The most recent examples sold for \$7,200 in April 2022 and \$6,600 in June 2022. The current PCGS Price Guide value is listed at \$8,500. The CAC CPG value in MS67 is \$45,500, so if you are looking for a superb Saint, but don't want to spend mid-five figures, carefully consider this GEM!

PCGS# 9176 | EST: \$6,500+

LOT 215**\$20 1926 PCGS MS64**

PCGS# 9183 | EST: \$1,800+

**LOT 216****\$20 1926-S PCGS MS64 CAC**

Despite a sizable mintage of over 2 million pieces, the 26-S is a very scarce date, as many were melted in the 1930s following FDR's gold recall of 1934. Indeed, David Akers noted, "It is an interesting historical footnote to point out that at one time the 1926-S was considered the third rarest collectible Saint-Gaudens double eagle after the 1924-S and 1926-D. It was held in much greater regard than the 1920-S or 1921 and was even considered to be more rare than the 1927-D." Over the last

seventy years, beginning in the 1950s, small hoards found overseas (mostly in Europe and South America) brought up the population of known specimens, with PCGS CoinFacts estimating about 1,750 surviving in all grades.

A warm, honey gold coloration is enlivened by a glowing, swirling mint luster. A few scattered ticks and marks from bag storage are noted for accuracy, but have little impact on the impressive visual allure of this VERY CHOICE and well struck example. The glowing orange-gold toning and luster really give this VERY SCARCE date a great look.

PCGS 356, NGC 271, CAC 42. The last PCGS/CAC MS64 sold back in October 2016. Since then, an NGC-graded example with CAC approval sold for \$12,500 in the Sotheby's sale of the Stone Collection (May 2018)--even that was forever ago. The current Collectors Universe value is \$12,500 and the CAC CPG value is \$15,000. Challenging as this date is in MS64 or lower, it is seriously RARE any finer. Good luck.

LOT 218**50C 1935-S ARKANSAS PCGS MS67 CAC**

Tied for second highest graded at PCGS, this is a beautifully toned SUPERB GEM example, one of just 5,506 distributed. Clearly this coin sat for ages in an album or other type of holder that imparted a dramatic band of rainbow toning at the left peripheries on both obverse and reverse, before blending to original shimmering silver surfaces and dappled olive-gold. The eye appeal is truly wonderful.

PCGS 44, NGC 31, CAC 17. An example with a similar toning pattern (though somewhat different palette) realized \$3,600 in June 2021. We expect this one to likewise bring a premium bid over and above published price guide levels.

LOT 219**50C 1936-S COLUMBIA PCGS MS68 CAC**

Among the ABSOLUTE FINEST GRADED! This GLORIOUS SUPERB GEM Columbia half dollar, this coin is an old friend. Our consignor purchased it out of our July 2022 Regency Auction, as part of the Unforgettable Collection, and is re-offering it, as he was surprisingly able to upgrade his set with another example.

This coin really is quite beautiful for the type. A lower mintage issue, with only 8,007 distributed. A satiny luster booms on both sides, especially frosty in the centers. The peripheral devices are coated with a beautiful album toning, which creates a great frame for the well struck central devices. The original consignor of this coin in September 2018 had bought a small group of commemoratives in an old Wayte Raymond board, and we had them certified by PCGS.

Ex an old time collection in a Wayte Raymond board; our consignor; Legend Rare Coin Auctions' Regency Auction 28, September 2018, lot 184; Unforgettable Collection; Legend Rare Coin Auctions' Regency Auction 53, July 2022, lot 17; our consignor.

LOT 220**50C 1936 GETTYSBURG PCGS MS67+ CAC**

Commemorating the 75th anniversary of this pivotal battle of the Civil War, the Gettysburg half is always one of the more popular types in the series. This is a totally original SUPERB GEM that clearly sat for ages in its original cardboard holder. Thickly frosted, satiny surfaces are aglow under a thick, multicolored toning, especially on the reverse. The colors range from deeper orange and tan to olive, russet, and deeper blue. The eye appeal is incredible.

PCGS 262, NGC 144, CAC 92. There are 56 listed in the PCGS Population Report at this grade with just five finer. There is a wide range of prices realized for PCGS/CAC examples, ranging from \$4,560 to \$9,400 and the current PCGS Price Guide value is listed at \$6,000. PCGS has graded five in MS68 finer, and these usually sell in the \$30,000-\$40,000 range. Worthy of a strong bid and placement in a great set.

Tied for second highest graded at PCGS and there are NONE finer at CAC. A strong underlying luster highlights wonderfully toned and PRISTINE surfaces. Delicate apricot-gold and warm azure toning graces both sides. We have looked this SUPERB Pan-Pac over and over with a strong glass, and there are ZERO imperfections. The devices are sharply struck and the surfaces are flawless. The eye appeal is truly high end and very pleasing!

PCGS 135, NGC 61, CAC 71. There are 30 in MS67+ and just five finer. The toning is slightly different from the one we recently sold as part of the Unforgettable Collection which realized \$12,338 in our July 2022 Regency Auction. LOT 222
1C 1858 J-192 PCGS PR65 CAC

A fabulous GEM Pattern Flying Eagle cent. Everything about it is high end and totally original. The obverse was struck using the regular issue Small Letters die, while the reverse is struck with a plain oak wreath. This popular transitional pattern was struck on a copper-nickel planchet with a plain edge. Considered to be Rarity-5, there are about 70 graded in all grades between PCGS and NGC, including, no doubt, much duplication.

This GEM has the look! Deeply reflective and flashy fields beam with a golden-tan and iridescent brilliance. The surfaces are nearly pristine, indeed there are more lines and marks on the holder than there are on the coin. The devices are sharply struck up and have precision definition that rendered each detail to its finest, chiseled relief. The eye appeal is superb, and worthy of its lofty grade, CAC approval, and Eagle Eye Photo Seal.

PCGS 10, NGC 3, CAC 4. This coin sold in the 2019 FUN auction for \$5,040. The current PCGS Price Guide value is listed at \$6,500. At this grade level, this coin is of similar rarity to the regular issue Proof 1858 Small Letters Flying Eagle cent, and we sold the most recent of those for \$27,025 in April 2021! In comparison, this rarity seems to be quite reasonable! WOW. Good luck.

LOT 223**5C 1866 J-507 PCGS PR66 CAC**

A truly fabulous example of this "transitional" pattern! Struck using a regular 1866 obverse die and regular 1867 or later date with No Rays reverse. Struck in nickel this is a Rarity-5 pattern issue, and the presently offered example is TIED FOR FINEST graded in the non-CAM designation.

The incredible mirrors are deep, icy, and essentially FLAWLESS! Nearly a full CAMEO contrast is seen on both sides, with frosted devices standing out against the watery reflective surfaces. A delicate blush of golden iridescent toning graces the surfaces, enhancing the Premium GEM quality and bold eye appeal, and attesting to the originality.

PCGS 2, NGC 3, CAC 1. There is no record for a PCGS PR66 ever selling in auction, and the last NGC-graded example sold over 15 years ago! The current PCGS Price Guide value is listed at \$6,500 and we know this coin will see spirited bidding when it crosses the block; it will fit nicely in any pattern or shield nickel set. Good luck.

LOT 224**\$5 1867 J-599 PCGS PR66 RB CAC**

Ex Simpson, as noted on the insert.

We are proud to offer this FINEST KNOWN J-599! What an AMAZING coin this is. We love this Proof \$5 die trial in copper, struck from the regular 1867 Proof dies. Struck in copper with a reeded edge, this is a high Rarity-7+ with just 4-7 examples known.

Strong mirrors beam from all over. The mirrors are extremely clean. If you twirl the coin the mirrors look like thick glass. Both sides are loaded with killer original colors of brown/green/gold/pale violet/blue. Mother Nature did a special job here. Miss Liberty and the details are fully struck and boldly stand out. The eye appeal is fantastic!

PCGS 1, NGC 0, CAC 1. This SUPERB GEM brought \$16,800 in the Simpson in January 2021, and \$17,625 in our July 2022 Regency Auction. The current Collectors Universe value is listed at \$17,500 and we think this coin has huge upside potential. Consider what a regular PR66 1867 \$5 would cost! Good luck.

**LOT 225****3CN 1869 J-676 PCGS PR65 CAM CAC**

A real GEM! Similar to the regular issue 3 cent nickel dies, struck in nickel with a plain edge. This is a relatively common pattern issue, rated as Rarity-4, 76-200 struck.

The eye appeal is strong, as is the cameo contrast. Bold, icy mirrors have exceptional clarity and sheen for a coin struck in nickel and the surfaces are delicately dusted with a totally original pastel iridescent toning.

PCGS 9, NGC 10, CAC 8. The current PCGS Price Guide value is listed at \$2,100. Just half a dozen are graded higher at PCGS in the CAM designation. Worthy of a world class three cent nickel set or a great coin to "dip your toe into the water" of pattern collecting.

Listed as Rarity-8 in the Judd reference (10th Edition, 2009) and described as Rarity-7+ in other sources, the only other PCGS-graded example to ever sell was the PR64+ BN ex Simpson coin. Barber's capped bust of Liberty with ribbon inscribed LIBERTY. Two stars. IN GOD WE TRUST on ribbon below. STANDARD 50 CENTS in agricultural wreath. Struck in copper with a plain edge, there are perhaps five known in all. Deeply toned copper surfaces are nearly flawless. There are no serious marks or lines, a couple of toning flecks will forever identify this GEM. Among the FINEST of just a handful known.

PCGS 1, NGC 0, CAC 1. The Simpson coin, which was ex. Queller/Leums, brought \$5,640 in our May 2017 Regency Auction. The current Collectors Universe value is listed at \$8,000. An important opportunity for the advanced collector.

**5C 1882 J-1684 PCGS PR65 CAM
CAC**

Very high end and glorious! This is a popular Liberty Head nickel pattern, featuring Charles Barber's Liberty Head, UNITED STATES OF AMERICA around; Reverse has a large V in a wreath, with E PLURIBUS UNUM above. Struck in nickel with a plain edge, it is listed as Rarity-6- (21-30 minted).

Tied with 2 others as the ONLY examples graded in the CAM designation! Intensively glassy, reflective mirrors beam brilliantly below delicate iridescent toning that is splashed across the black and white contrasted surfaces. The fields are icy, sleek, and are virtually pristine, flawless to the naked eye and the quality stands up to close scrutiny with a strong glass. Sharply struck and fully frosted devices stand out wonderfully creating a bold cameo contrast. The eye appeal is excellent.

PCGS 3, NGC 0, CAC 1. The only other one to sell was NOT CAC and brought \$5,640 in our July 2021 Regency Auction. This CAC-approved example is FINER much prettier, and will sell for more. For reference, the PCGS Price Guide value is listed at \$6,500 and we have no doubt this coin will bring that or more! Bound for an advanced set of Liberty nickels or a world class pattern set. Good luck.

LOT 230

\$20 1853 U.S. ASSAY OFFICE. 900 FINE. NGC MS62

This is a great example of a very popular type that really should be considered a federally issued coin! The U.S. Assay Office of Gold essentially operated as a provisional U.S. mint from 1851 to 1853, first under the supervision of Moffat & Co. and Augustus Humbert, then under Curtis, Perry, and Ward after Moffat retired in early 1852. With their strong reputation, the U.S.A.O.G. churned out millions of coins, according to Kagin, from

March 1853 to October 1853, about 2.5 million were struck; while the mintage was very large, many of these \$20 gold pieces were returned to the mint and melted, then restruck into federal issued double eagles. This K-18 variety was struck from a large number of dies, which were destroyed during the Great Fire of 1906.

There is no wear to be found anywhere on this LOVELY Mint State example. Sharply struck devices stand out, highlighted by a frosty glow and satiny sheen. Greenish-gold coloration mingles with hints of orange within the recesses of the devices. Scattered traces of ancient contact can be seen, mostly as small disruptions in the frost, they have minimal impact on the excellent eye appeal on this historic issue. Housed in an old NGC "fatty" holder.

PCGS 37, NGC 55. There is a wide range of prices realized in auction for NGC-graded examples, from \$13,200 to \$18,000 and the current Collectors Universe value is listed at \$19,500. This is a great looking example that should bring a premium bid for its freshness and its older holder. Good luck.
